One Nation Under God Christian:

One Nation Under God Rus Walton, 1975 *One Nation Under God* Kevin Kruse, 2015-04-14 We are often told that the United States is was and always has been a Christian nation But in *One Nation Under God* historian Kevin M Kruse reveals that the idea of Christian America is an invention and a relatively recent one at that As Kruse argues the belief that America is fundamentally and formally a Christian nation originated in the 1930s when businessmen enlisted religious activists in their fight against FDR's New Deal Corporations from General Motors to Hilton Hotels bankrolled conservative clergymen encouraging them to attack the New Deal as a program of pagan statism that perverted the central principle of Christianity the sanctity and salvation of the individual Their campaign for freedom under God culminated in the election of their close ally Dwight Eisenhower in 1952 But this apparent triumph had an ironic twist In Eisenhower's hands a religious movement born in opposition to the government was transformed into one that fused faith and the federal government as never before During the 1950s Eisenhower revolutionized the role of religion in American political culture inventing new traditions from inaugural prayers to the National Prayer Breakfast Meanwhile Congress added the phrase under God to the Pledge of Allegiance and made In God We Trust the country's first official motto With private groups joining in church membership soared to an all time high of 69% For the first time Americans began to think of their country as an officially Christian nation During this moment virtually all Americans across the religious and political spectrum believed that their country was one nation under God But as Americans moved from broad generalities to the details of issues such as school prayer cracks began to appear Religious leaders rejected this lowest common denomination public religion leaving conservative political activists to champion it alone In Richard Nixon's hands a politics that conflated piety and patriotism became sole property of the right Provocative and authoritative *One Nation Under God* reveals how the unholy alliance of money religion and politics created a false origin story that continues to define and divide American politics to this day **Deuteronomy** Athas, George,

Deuteronomy George Athas, 2016 **One Nation Under God?** John D. Wilsey, 2011-06-01 Is America a Christian nation This question has loomed large in American culture since the Puritans arrived on American shores in the early seventeenth century More recently the Christian America thesis has been advocated by many evangelical leaders across the denominational spectrum This book contributes to the conversation by critiquing from an evangelical perspective the idea that America is a Christian nation as articulated by specific writers over the past three decades Wilsey asserts that the United States was not conceived as a Christian nation but as a nation with religious liberty Herein lies the genius of the Founders and the uniqueness of America One Nation Under God? An Arrogant Nation That Creates Its Own Reality: Rogene A. Buchholz,2019-11-13

Americans seem prone to create their own reality in situations that have faced them over the past several years and this arrogance cost the country dearly Three events stand out as prime examples this arrogance The first of these events was the war in Iraq which was based on the false reality that the country possessed weapons of mass destruction and had ties to terrorist organizations The second example was the financial crisis of 2008 which was precipitated by the invention of new and complicated investment vehicles The last example is the current Trump administration which was filled with falsehoods during the campaign and his first years in office such that one could not believe anything that this administration said This book is going to focus on religious reasons for this situation as I believe that it is the Christian religion that is largely at fault for this condition It is religion that has set up most Americans to believe our leaders when they outright lie and claim to know things beyond what the evidence will support and create a false reality that eventually comes crashing down to disrupt American life If our nation is ever going to be great it must quit living in a fantasy world and give up a belief in magic as far as its future is concerned Decisions in government and business must be based on reality as it is and not on what we arrogantly think we can create The two go together as the more we try and create our own reality the less able we are to come to grips with the reality that actually exists The place to start is by recognizing the role the Christian religion has played in this phenomenon and letting go of the fantasies that comprise this religion and live a secular life that finds meaning and purpose in this world rather than in some hereafter We will not successfully deal with all the problems with which we are faced and have a political and economic system that works for everyone until this happens

The Myth of a Christian Nation Gregory A. Boyd,2009-05-18 The church was established to serve the world with Christ like love not to rule the world

It is called to look like a corporate Jesus dying on the cross for those who crucified him not a religious version of Caesar It is called to manifest the kingdom of the cross in contrast to the kingdom of the sword Whenever the church has succeeded in gaining what most American evangelicals are now trying to get political power it has been disastrous both for the church and the culture Whenever the church picks up the sword it lays down the cross The present activity of the religious right is destroying the heart and soul of the evangelical church and destroying its unique witness to the world The church is to have a political voice but we are to have it the way Jesus had it by manifesting an alternative to the political power over way of doing life We are to transform the world by being willing to suffer for others exercising power under not by getting our way in society exercising power over

The Bible in American Law and Politics John R. Vile, 2020-09-19 While scholars increasingly recognize the importance of religion throughout American history The Bible in American Law and Politics is the first reference book to focus on the key role that the Bible has played in American public life In considering revolting from Great Britain Americans contemplated whether this was consistent with scripture Americans subsequently sought to apply Biblical passages to such issues as slavery women s rights national alcoholic prohibition issues of war and peace and the like American presidents continue to take their oath on the Bible Some of America s greatest

speeches for example Lincoln's Second Inaugural and William Jennings Bryan's Cross of Gold speech have been grounded on Biblical texts or analogies. Today Americans continue to cite the Bible for positions as diverse as LGBTQ rights, abortion, immigration, welfare, health care, and other contemporary issues. By providing essays on key speeches, books, documents, legal decisions, and other writings throughout American history that have sought to buttress arguments through citations to Scriptures or to Biblical figures, John Vile provides an indispensable guide for scholars and students in religion, American history, law, and political science to understand how Americans throughout its history have interpreted and applied the Bible to legal and political issues.

Was America Founded as a Christian Nation? Revised Edition John Fea, 2016-10-01

John Fea offers a thoroughly researched, evenhanded primer on whether America was founded to be a Christian nation as many evangelicals assert or a secular state as others contend. He approaches the title's question from a historical perspective, helping readers see past the emotional rhetoric of today to the recorded facts of our past. This updated edition reports on the many issues that have arisen in recent years concerning religion's place in American society, including the Supreme Court decision on same-sex marriage, contraception, and the Affordable Care Act, and state-level restrictions on abortion, and demonstrates how they lead us to the question of whether the United States was or is a Christian nation. Fea relates the history of these and other developments, pointing to the underlying questions of national religious identity inherent in each. We live in a sound bite culture that makes it difficult to have any sustained dialogue on these historical issues. Fea writes in his preface: It is easy for those who argue that America is a Christian nation and those who do not to appear on radio or television programs, quote from one of the founders or one of the nation's founding documents, and sway people to their positions. These kinds of arguments, which can often be contentious, do nothing to help us unravel a very complicated historical puzzle about the relationship between Christianity and America's founding.
