Grandmothers on Guard Jennifer Johnson, 2021-05-18 For about a decade one of the most influential forces in US anti immigrant politics was the Minuteman Project The armed volunteers made headlines patrolling the southern border What drove their ethno nationalist politics Jennifer L Johnson spent hundreds of hours observing and interviewing Minutemen hoping to answer that question She reached surprising conclusions While the public face of border politics is hypermasculine men in uniforms fatigues and suits older women were central to the Minutemen Women mobilized support and took part in border missions These women compel us to look beyond ideological commitments and material benefits in seeking to understand the appeal of right wing politics Johnson argues that the women of the Minutemen were motivated in part by the gendered experience of aging in America In a society that makes old women irrelevant aging white women found their place through anti immigrant activism which wedded native politics to their concern for the safety of their families Grandmothers on Guard emphasizes another side of nationalism the yearning for inclusion The nation the Minutemen imagined was not only a space of exclusion but also one in which these women could belong

Handbook of Research on Educational Leadership for Equity and Diversity Linda C. Tillman, James Joseph Scheurich, 2013-08-21 The rapid growth of diversity within U.S. schooling and the heightened attention to the lack of equity in student achievement, school completion and postsecondary attendance has made equity and diversity two of the principle issues in education, educational leadership and educational leadership research. The *Handbook of Research on Educational Leadership for Equity and Diversity* is the first research-based handbook that comprehensively addresses the broad diversity in U.S. schools by race, ethnicity, culture, language, gender, disability, sexual identity and class. The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking, biases and prejudices that undermine school success for many groups of students. Well-known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders. Each chapter reviews theoretical and empirical evidence of these inequities and provides research-based recommendations for practice and for future research. Celebrating the broad diversity in U.S. schools, the *Handbook of Research on Educational Leadership for Equity and Diversity* critiques the inequities connected to that diversity and provides evidence-based practices to promote student success for all children.
