**Iron Man vs. Captain America and Philosophy** Nicolas Michaud, Jessica Watkins, 2018-08-21 Iron Man or Captain America Which one is superior as a hero as a role model or as a personification of American virtue Philosophers who take different sides come together in Iron Man versus Captain America to debate these issues and arrive at a deeper understanding of the strengths and weaknesses of these iconic characters The discussion ranges over politics religion ethics psychology and metaphysics John Altmann argues that Captain America's thoughtful patriotism is superior to Iron Man's individualist cosmopolitanism Matthew William Brake also votes for Cap maintaining that it's his ability to believe in the impossible that makes him a hero and in the end he is vindicated Cole Bowman investigates the nature of friendship within the Avengers team focusing predominantly on the political and social implications of each side of the Civil War as the Avengers are forced to choose between Stark and Rogers According to Derrida's Politics of Friendship Cap is the better friend but that doesn't make him the winner Aron Ericson's chapter tracks our heroes journeys in the movies culminating with Civil War where the original attitudes of Tony trusts only himself and Steve trusts the system are inverted Corey Horn's chapter focuses on one of the many tensions between the sides of Iron Man and Captain America the side of Security Iron Man versus Liberty Cap But Maxwell Henderson contends that if we dig deeper into the true heart of the Marvel Civil War it isn't really about security or privacy but more about utilitarianism what's best for everybody Henderson explains why Iron Man was wrong about what was best for everybody and discloses what the philosopher Derek Parfit has to say about evaluating society from this perspective Daniel Malloy explains that while both Captain America and Iron Man have faced setbacks only Iron Man has failed at being a hero and that makes him the better hero In his other chapter Malloy shows that where Iron Man trusts technology and systems Captain America trusts people Jacob Thomas May explores loss from the two heroes points of view and explains why the more tragic losses suffered by Stark clearly make him the better hero and the better person Louis Melancon unpacks how Captain America and Iron Man each embodies key facets of America attempts to wage wars through attrition and the prophylactic of technology neither satisfactorily resolves conflict and the cycle of violence continues Clara Nisley tests Captain America and Iron Man's moral obligations to the Avengers and their shared relationship establishing Captain America's associative obligations that do not extend to the arbitration and protection of humans that Iron Man advocates Fernando Pagnoni Berns considers that while Iron Man is too much attached to his time and the thinking that comes with it Captain America embraces historical values and thinks that there are such things as intrinsic human dignity and rights an ethical imperative Christophe Porot claims that the true difference between Captain America and Iron Man stems from the different ways they extend their minds Cap extends his mind socially while Stark extends his through technology Heidi Samuelson argues that the true American spirit isn't standing up to bullies but comes out of the self-interested traditions of liberal capitalism which is why billionaire former arms industry giant Tony Stark is ultimately a

more appropriate American symbol than Steve Rogers By contrast Jeffrey Ewing shows that the core of Captain America Civil War centers on the challenge superpowers impose on state sovereignty and the monopoly of coercion it implies Nicol Smith finds that Cap and Shell Head s clash during the Civil War does not necessarily boil down to the issue of freedom vs regulation but rather stems from the likelihood that both these iconic heroes are political and ideological wannabe supreme rules or Leviathans Craig Van Pelt reconstructs a debate between Captain America and Iron Man about whether robots can ever have objective moral values because human bias may influence the design and programming James Holt looks into the nature of God within Captain America s world and how much this draws on the previous life of Captain Steve Rogers Holt s inquiry focuses on the God of Moses in the burning bush as contrasted with David Hume s understanding of religion Gerald Browning examines our two heroes in a comparison with the Greek gods Hephaestus and Hercules Christopher Ketcham supposes that with the yellow bustard wreaking havoc on Earth God asks Thomas Aquinas to use his logical process from Summa Theologica to figure which one of the two superheroes would be better at fixing an economic meltdown and which one would be better at preventing a war Rob Luzecky and Charlene Elsby argue that gods cannot be heroes and therefore that the god like members of the Avengers Iron Man with a god s intelligence Thor with a god s strength and the Hulk with a god s wrath are not true heroes in the same sense as Captain America Cap is like Albert Camus s Sisyphus heroic in the way that he rallies against abstract entities like the gods and the government
