Online Book Lives Limbo Undocumented Coming America:

Lives in Limbo Roberto G. Gonzales, 2016 Over two million of the nation's eleven million undocumented immigrants have lived in the United States since childhood. Due to a broken immigration system they grow up to uncertain futures. In *Lives in Limbo* Roberto G. Gonzales introduces us to two groups: the college goers like Ricardo whose good grades and strong network of community support propelled him into higher education only to land in a factory job a few years after graduation and the early exiters like Gabriel who failed to make meaningful connections in high school and started navigating dead end jobs, immigration checkpoints and a world narrowly circumscribed by legal limitations. This ethnography asks why highly educated undocumented youth ultimately share similar work and life outcomes with their less educated peers even as higher education is touted as the path to integration and success in America. Gonzales bookends his study with discussions of how the prospect of immigration reform, especially the Deferred Action for Childhood Arrivals (DACA) program, could impact the lives of these young Americans. Race, Class, and Choice in Latino/a Higher Education Sarah M. Ovink, 2016-11-12 This book is an in-depth study which examines the lives of fifty ambitious Latino high school seniors in the San Francisco East Bay Area following their entrance into college and career pathways over several years. This book examines the social forces that contributed to near universal college attendance among these mostly low-income Latinos, all of whom attended fairly typical public schools. In an era of increased economic insecurity, decreased funding for schools, and rising college tuition, this book provides a balanced look at the individual choices and systemic constraints influencing today's college for all orientation while pointing the way toward possibilities for making college pathways smoother for all.

The Book of Isaias Daniel Connolly, 2016-10-04 In a green town in the middle of America, a bright 18-year-old Hispanic student named Isaias Ramos sets out on the journey to college. Isaias, who passed a prestigious national calculus test as a junior and leads the quiz bowl team, is the hope of Kingsbury High in Memphis, a school where many students have difficulty reading. But Kingsbury's dysfunction, expensive college fees, and forms printed in a language that's foreign to his parents are all obstacles in the way of getting him to a university. Isaias also doubts the value of college and says he might go to work in his family's painting business after high school despite his academic potential. Is Isaias making a rational choice? Or does he simply hope to avoid pain by deferring dreams that may not come to fruition? This is what journalist Daniel Connolly attempts to uncover in *The Book of Isaias* as he follows Isaias peers into a tumultuous final year of high school and eventually shows how adults intervene in the hopes of changing Isaias' life. Mexican immigration has brought the proportion of Hispanics in the nation's youth population to roughly one in four. Every day, children of immigrants make decisions about their lives that will shape our society and economy for generations.

Children's Magazine Guide, 2007 *Citizenship in Question* Benjamin N. Lawrance, Jacqueline Stevens, 2017-02-02 The contributors to *Citizenship in Question* demonstrate that the line separating citizenship and noncitizenship is ambiguous and inconsistent. In case studies analyzing the legal barriers to citizenship rights

in over twenty countries the contributors show how states use citizenship requirements to police racial ethnic class and religious difference
