Economics as Social Theory

Online Book Philosophy Debt Economics Social Theory

Michael McKinley

Online Book Philosophy Debt Economics Social Theory:

Religion and Economics: Normative Social Theory J.M. Dean,A. M. C. Waterman,1999 To follow up the 1994 Economics and Religion Are They Distinct which explored how the two systems of thought could be harmonized within normative social theory a number of case studies were conducted and the reports and sent as a group to a second group of authors These commentators composed interpretive essays to address whether the attempts to combine into a normative social theory the putative insights of theology with the putative scientific knowledge supplied by economics are intellectually defensible and or actually fruitful The volume contains both the case studies and the essays Annotation copyrighted by Book News Inc Portland OR

The SAGE Handbook of the Philosophy of Social Sciences Ian C Jarvie,Jesus Zamora-Bonilla,2011-02-17 what is the relationship between the social sciences and the natural sciences where do today s dominant approaches to doing social science come from what are the main fissures and debates in contemporary social scientific thought how are we to make sense of seemingly contrasting approaches to how social scientists find out about the world and justify their claims to have knowledge of it In this exciting handbook Ian Jarvie and Jes s Zamora Bonilla have put together a wide ranging and authoritative overview of the main philosophical currents and traditions at work in the social sciences today Starting with the history of social scientific thought this handbook sets out to explore that core fundamentals of social science practice from issues of ontology and epistemology to issues of practical method Along the way it investigates such notions as paradigm empiricism postmodernism naturalism language agency power culture and causality Bringing together in one volume leading authorities in the field from around the world this book will be a must have for any serious scholar or student of the social sciences Social Philosophy (RLE Social Theory) Hans Fink,2014-08-07 The programmes of political parties and

movements are attempts to formulate policies or guidelines in relation to social change Social philosophy concerns the fundamental issues on which those programmes divide This introductory work gives an account of several highly influential systems of social philosophy systems which serve as the landmarks by reference to which modern discussions still orientate themselves The description of various stages in the history of social philosophy is set within an account of its changing social environment from feudalism and the philosophy of Aquinas to the rise of the working class and socialism The book confines itself to the Western tradition and one could say that it charts the rise and fall of the free market as the central institution and the key to the understanding of society

An Economic Sociology of Law Reimagined Clare Williams,2022-12-14 This book critically examines the concept of embeddedness the core concept of an economic sociology of law ESL It suggests that our ways of doing talking and thinking about law economy and society reproduce and re entrench mainstream approaches shaping our thoughts and actions such that we perform according to the model Taking a deep dive into one example the concept of embeddedness this book combines insights from law sociology economics and psychology to show that while we use metaphor to talk about law and economy our metaphors in turn use us moulding us into their fictionalized

caricatures of homo juridicus and homo economicus The result is a groundbreaking study into the prioritization throughout society of interests and voices that align with doctrinal understandings of law and neoclassical understandings of economics approaches that led us into the dilemmas currently facing society Zooming out from a detailed exploration of embeddedness in economic sociology and ESL literature the book unpacks the fashionable post 2008 claim that the economy should be re embedded in society and proposes two conceptual shifts in response The book draws on personas and vignettes throughout both to imagine and to realize shifting an ESL beyond embeddedness This timely engagement with the emerging field of economic sociology of law will appeal to socio legal scholars and others with interests in the intersection of law economics and sociology The Open Access versions of Chapter 1 and Chapter 6 available at www.taylorfrancis.com have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Elgar Companion to Modern Money Theory Yeva Nersisyan, L. R. Wray, 2024-08-06 This Companion is a comprehensive introduction to Modern Money Theory MMT covering a wide variety of topics from the nature and origins of money to the fundamentals of government spending and taxation to the application of MMT in developed and developing countries

Globalization Revisited Grahame Thompson, 2014-11-27 Written by one of the leading scholars of global politics Globalization Revisited is a major new book for students of globalization It describes and explains the challenges to liberalism and the global order as result of globalizing forces from financial interconnectedness to the growth of religious fundamentalisms The text provides a detailed analysis of the economic and financial aspects of globalization examines the changes to global power and governance created by globalization including its effect on the sovereignty of the nation state discusses recent trends such as the increased use of networks and social media assesses the rise of globalizing fundamentalism analyzes the challenges to globalization posed by contemporary events such as the global financial crisis This book will be essential reading for all students of globalization and will be of great interest to students of global politics and global governance

Microeconomics Samuel Bowles, Simon D. Halliday, 2022 The authors bring into the classroom the ideas that today's researchers and policy makers use including behavioral economics game theory and incomplete contracts Modern microeconomics is applied to pressing issues that students care about inequality climate change and innovation and illustrated with empirical case studies

Social Forms/Human Capacities (RLE Social Theory) Philip Corrigan, 2020-07-26 This is an exhilarating book written by one of sociology's most imaginative theorists and critics Professor Corrigan proceeds by turning old answers into new questions He draws on a rich tradition of thought from sociology philosophy structuralism post structuralism and literary criticism to explore major ongoing problems in everyday life moral regulation schooling the capitalist world economy intellectuals and the problem of difference masculinity The result is one of the most dazzling contributions to critical sociology published in recent years

40 Years of Economics Muriel Dal Pont Legrand, Sandye Gloria, 2025-09-01 This book is written in honour of Richard Arena Professor of Economics

Economic Globalisation as Religious War Michael McKinley, 2007-06-28 Using a critical theory approach to analyze the globalization of the world economy this provocative and topical new book presents economic globalization not as a recent development but rather as a familiar process that has occurred throughout history Michael McKinley argues that it is ultimately a self-serving arbitrary and destructive imperial project that should be viewed as a religious war

Transforming Economics Paul Lewis, 2004-08-02 Economics has become polarised On the one hand there is a body of economists who concern themselves with progressing their discipline via an increasing use of mathematical modelling On the other hand there are economists who believe passionately that in order for economics to be useful it needs to take account of its history its impact on society and its real world applications The contributors to this book fix their scholarly glare on the heterodox section of economics and in particular upon critical realist approaches to the subject Experts from a variety of perspectives have come together in these pages to examine the impact and usefulness of critical realism in relation to the different spheres within economics Notable for its contributions from such distinguished figures as Clive Granger Edward J Nell and Peter J Boettke this book deserves to find a ready audience across the economics spectrum

Democratic Revolutions Mark K. Thompson, 2003-11-20 Thompson examines the neglected concept of democratic revolutions spontaneous popular uprisings which topple unyielding dictators and begin a transition process that eventually results in the consolidation of democracy

A Critical Theory of Economic Compulsion Werner Bonefeld, 2023-03-20 This book explores a variety of interconnected themes central to contemporary Marxist theory and its further development as a critical social theory Championing the critique of political economy as a critical theory of society and rejecting Marxian economics as a contradiction in terms it argues instead that economic categories are perverted social categories before identifying the sheer unrest of life the struggle to make ends meet as the negative content of the reified system of economic objectivity With class struggle recognised as the negative category of the cold society of capitalist wealth which sees in humanity a living resource for economic progress the author contends that the critique of class society finds its rational solution in the society of human purposes that is the classless society of communist individuals A theoretically sophisticated engagement with Marxist thought *A Critical Theory of Economic Compulsion* will appeal to scholars of social and political theory with interests in critical theory and post-capitalist imaginaries

Introducing Cultural Studies Brian

Longhurst, Greg Smith, Gaynor Bagnall, Garry Crawford, Miles Ogborn, 2016-11-10 This updated new edition of *Introducing Cultural Studies* provides a systematic and comprehensible introduction to the concepts debates and latest research in the field Reinforcing the interdisciplinary nature of Cultural Studies the authors first guide the reader through cultural theory before branching out to examine different dimensions of culture in detail including globalisation the body geography fashion and politics Incorporating new scholarship and international examples this new edition includes New and improved Defining Concepts Key Influences Example and Spotlight features that probe deeper into the most significant ideas theorists and examples ensuring you obtain an in depth understanding of the subject A brand new companion website featuring a flashcard glossary web links discussion and essay questions to stimulate independent study A new look text design with over 60 pictures and tables draws all these elements together in an attractive accessible design that makes navigating the book and the subject simple and logical *Introducing Cultural Studies* will be core reading for Cultural Studies undergraduates and postgraduates as well as an illuminating guide for those on Communication and Media Studies English Sociology and Social Studies courses looking for a clear overview of the field *A Companion to the History of Economic Thought* Warren J. Samuels, Jeff E. Biddle, John B. Davis, 2008-04-15 Assembling contributions from top thinkers in the field this companion offers a comprehensive and sophisticated exploration of the history of economic thought The volume has a threefold focus the history of economic thought the history of economics as a discipline and the historiography of economic thought Provides sophisticated introductions to a vast array of topics Focuses on a unique range of topics including the history of economic thought the history of the discipline of economics and the historiography of economic thought *The capitalist mode of destruction* Costas Panayotakis, 2021-02-09 The capitalist mode of destruction traces contemporary capitalism's economic ecological and democratic crises Combining insights from a range of disciplines including psychology sociology and political economy Panayotakis interprets these crises as manifestations of a previously unrecognized contradiction over time the benefits of capitalism's technological dynamism tend to decline even as its threats to humanity and the planet continue to mount To explain this contradiction the book analyzes the production and distribution of surplus in capitalist societies and rethinks the concept of surplus itself Identifying the public sector and households as sites of production no less important than the workplace this book attributes capitalism's contradictions to working people's lack of control over the surplus they produce This lack of control is undemocratic and threatens the planet Only a classless society in which working people democratically determine the size and use of the surplus they produce can effectively respond to our current predicament Recognizing such a democratic classless society as the essence of the communist ideal the book argues that far from becoming obsolete this ideal is ever more indispensable But since the necessity of this ideal does not guarantee its realization the book also investigates the conditions necessary for the formation of an anti capitalist alliance for social justice democracy and ecological sustainability *Universities as Political Institutions* Leasa Weimer, Terhi Nokkala, 2020-04-06 Universities

can be viewed and studied as political institutions especially considering that they sit at the crossroads of social cultural and economic pressures The internal and external environment of higher education brings with it multiple and complex relationships as well as power struggles Within these contested political spaces there are phenomena to be studied While the field of higher education draws from a multitude of disciplines some scholars argue that only recently has scholarship focused on the political perspectives of higher education To better understand the politics and policies of higher education Universities as Political Institutions illuminates a variety of ways that researchers view and study universities as a political institution from considering the national and international political pressures shaping higher education to the analysis of responses and political action from within the ivory tower The 2017 annual CHER conference in Jyväskylä Finland brought together 213 scholars from 30 countries This book includes a selection of papers and keynote presentations from this conference The thematic approach of the book reflects the 2017 conference theme Universities as Political Institutions Higher Education Institutions in the Middle of Academic Economic and Social Pressures The theme focused on multiple and often complex relations and relationships internal and external to higher education institutions In this context political refers not only to definitions uses and users of power but more broadly to a variety of relationships among different actors and agencies responsible for making executing or resisting decisions concerning higher education institutions
