Minimally Invasive And Office Based Procedures In Facial Plastic Surgery:

Minimally Invasive and Office-Based Procedures in Facial Plastic Surgery Fred G. Fedok, Paul J. Carniol, 2013-05-15

Minimally Invasive and Office Based Procedures in Facial Plastic Surgery is a practical how to guide that focuses on the latest techniques used to perform cosmetic plastic surgery procedures in an office or outpatient setting. The procedures covered range from chemical peels to short incision face and neck lift and much more. Key Features: Online access to over three hours of video in which experts demonstrate the surgical techniques presented in the book. Chapters are written so that both novice and more experienced practitioners can become proficient at performing new techniques. More than 500 detailed color illustrations presented in a step by step format clarify the procedures. Written by experts in the fields of facial plastic surgery, dermatology and plastic surgery. Facial plastic surgeons, otolaryngologists, dermatologists and plastic surgeons will repeatedly consult this book to review specific techniques in detail before performing a procedure in cosmetic facial surgery.

Minimally Invasive Procedures in Facial Plastic Surgery, An Issue of Facial Plastic Surgery Clinics Theda

Kontis, 2013-05-28 A collection of minimally invasive facial rejuvenation techniques are examined to answer the question: Are they replacing more traditional aggressive surgical procedures? This clinical and surgical information in *Facial Plastic Surgery Clinics* examines the increasing use of less invasive procedures and addresses how these are changing the surgeon's traditional approaches. 15 minute rhinoplasty, 1 hour facelift, lunchtime laser treatment, 5 minute Botox, all are very much in the public consciousness and facial plastic surgeons address minimally invasive procedures with the question: Do they work? What is the evidence in terms of outcomes for each of the procedures addressed? What are the challenges? Authors compare a minimally invasive technique with its more invasive procedure counterpart in facial rejuvenation and provide their own experience and sense of ultimate long term results. Technique, complications, contraindications, recovery, patient selection. Endoscopic brow lift is compared with coronal brow lift. Necklifts are compared with cervical skin tightening devices. Facial fillers are compared with facial implants. Fractional and ablative CO2 resurfacing are compared. Rhinoplasty versus fillers and more. Guest Editor Theda Kontis leads this presentation intended for facial plastic surgeons, plastic surgeons and other specialists who are certified to practice cosmetic surgery.

Office-Based Surgery in Otolaryngology, An Issue of Otolaryngologic Clinics of North America Melissa A Pynnonen, Cecelia E Schmalbach, 2019-05-11
