China's Miracle in Foreign Trade by Miaojie Yu, 2022-01-13. This book mainly focuses on the miracle of China's foreign trade in the past 40 years from five perspectives. First, it briefly reviews the import substitution strategy China adopted before its opening up. Second, it analyzes the export-oriented strategy that contributes a lot to China's economic growth since the 1980s. Third, it discusses the impacts of trade liberalization and China's participation in the WTO on Chinese firms. Fourth, it addresses the deepening opening up in the context of the global financial crisis. Last, it provides policy advice on China's newly conducted all-around opening up strategy.
