contract law **Arab Awakening and Islamic Revival** Martin Kramer, 2017-07-05 Over the past decade the political ground beneath the Middle East has shifted Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation At the same time Islam as an ideology has spread across the region and Islamists bid to capture the center of politics Most Western scholars and experts once hailed the redemptive power of Arabism Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism and the misrepresentation of both in the West The first part of the book argues that Arab nationalism the so called Arab awakening bore within it the seeds of its own failure Arabism as an idea drew upon foreign sources and resources Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West s own romanticism and radicalism Ultimately Arab nationalism became a force of oppression rather than liberation and a mirror image of the imperialism it defied Kramer s essays together form the only chronological telling and the at fully documented postmortem of Arabism The second part of the book examines the similar failings of Islamism whose ideas are Islamic reworkings of Western ideological radicalism Its effect has been to give new life to old rationales for oppression authoritarianism and sectarian division Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history As the region moves fitfully past ideology Kramer s perspective is more compelling than at any time in the past in Western academe no less than among many in the Middle This book will be of interest to sociologists political scientists economists and Middle East specialists Justice, Liability, And Blame Paul H. Robinson, 2019-03-13 This book examines shared intuitive notions of justice among laypersons and compares the discovered principles to those instantiated in American criminal codes It reports eighteen original studies on a wide range of issues that are central to criminal law formulation Intuitions of Justice and the Utility of Desert Paul H. Robinson, 2013-03-26 Research suggests that people of all demographics have nuanced and sophisticated notions of justice The core of those judgments is often intuition rather than reason Should the criminal law heed what principles are embodied in those deep seated judgments In Intuitions of Justice and the Utility of Desert Paul H Robinson demonstrates that criminal law rules that deviate from public conceptions of justice and desert can seriously undermine the American criminal justice system s integrity and credibility by failing to recognize or meet the needs of the communities it serves Professor Robinson sketches the contours of a wide range of lay conceptions of what criminals justly deserve touching upon many issues that penal code drafters or policy makers must face including normative crime control culpability grading sentencing justification and excuse defenses principles of adjudication and judicial discretion He warns that compromising the American criminal justice system to satisfy other interests can uncover the hidden costs incurred when a community s notions about justice are not reflected in its criminal laws Intuitions of Justice and the Utility of Desert shows that by ignoring the views of justice held by the communities they serve legislators policymakers and judges undermine the relevance of the criminal justice system and reduce its strength and credibility
