Miracle In The Early Christian World A Study In Sociohistoric Method:

Miracle in the Early Christian World Howard Clark Kee, 1983 Relighting the Souls Frederick E. Brenk, 1998 In the last ten years there has been an enormous awakening of interest in Plutarch This collection contains many stimulating and important articles from the Plutarch renaissance especially on the interaction between divine and human worlds and on expectations in the next life But treated here are also a number of other challenging topics in classical Greek literature Among them are the Near Eastern background of early Greek myth and literature the decisive speech of Achilles mentor Phoenix in the Iliad divine assimilations and ruler cult the language of Menander s young men the vision of God in Middle Platonism blessed afterlife in the mysteries Greek epiphanies and the Acts of the Apostles and the revolt at Jerusalem against Antiochos Epiphanes in the light of similar cities under Hellenistic rule Another book of Frederick E Brenk *Clothed in Purple Light* Franz Steiner 1998 *Miracles in Greco-Roman Antiquity* Wendy Cotter, 2012-11-12 *Miracles in Greco Roman Antiquity* presents a collection in translation of miracle stories from the ancient world The material is divided up into four main categories including healing exorcism nature and raising the dead Wendy Cotter in an introduction and notes to the selections contextualizes the miracles within the background of the Greco Roman world and also compares the stories to other Jewish and non Jewish miracle stories of the Mediterranean world This sourcebook provides an interdisciplinary collection of material which will be of value to students of the New Testament **Miracles** Patrick J. Hayes, 2016-01-11 *Miracles* give hope to the hopeless and exemplify the intersection of the divine and the mundane They have shaped world history and continue to influence us through their presence in films television novels and popular culture This encyclopedia provides a unique resource on the philosophical historical religious and cross cultural conceptions of miracles that cut across denominational lines Multidisciplinary in approach this informative yet entertaining encyclopedia covers major aspects of miraculous phenomena through more than 150 alphabetically arranged entries that document how humanity s belief in religious miracles over multiple places periods and faiths have affected society even changed the course of history Written for high school students and general readers the coverage enables readers to learn about different civilizations and cultures the controversies surrounding different beliefs and the often uncomfortable engagement of religion with science This single volume book provides a one stop ready reference that addresses a broad variety of subject matter on miraculous phenomena and guides further investigations into the subject Helpful illustrations and lucid explanations of the ancillary concepts associated with miraculous phenomena make learning about this topic more engaging Readers will be able to link the doctrinal concepts such as grace or prayer with the descriptions of miraculous events especially those associated with saints or holy objects The examination of the controversial aspects of different belief systems along with the book s balanced coverage of the interpretation of miracles will encourage students to weigh different explanations thus fostering the development of their critical thinking skills **Miracles and the Kingdom of God** Myrick C. Shinall Jr., 2018-03-28 In the

last decade or so scholarship on the miracles of Jesus has shifted from reconstructions of the historical Jesus to the questions of why and to what end early Jesus followers told stories about miracles Myrick Shinall contends that Mark and Q contain two distinct ways of remembering Jesus's miracles in relation to his proclamation of the kingdom of God He compares three cases of Mark Q overlaps which feature miracles the Beelzebul controversy the commissioning of the disciples and the testing or temptation narratives and finds that in Mark the miracles and the kingdom of God both point to Jesus identity as a divine figure whereas in Q Jesus and the miracles point instead to the coming kingdom of God Shinall further argues that these different views represent different strategies for creating group identities for Jesus followers strategies that came into conflict as the movement's identity coalesced At length he shows that the mix of high and low Christology in the Synoptic tradition requires reframing of the current debate over how early a high Christology developed in the nascent Jesus movement A History of the Quests for the Historical Jesus, Volume 2 Colin Brown, Craig A. Evans, 2022-11-08 A

comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A. Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One sold separately covers the period from the beginnings of Christianity to the end of World War II Volume Two covers the period from the post War era through contemporary debates Disabilities in Roman Antiquity Christian Laes, Chris Goodey, M. Lynn Rose, 2013-05-30 This is the first volume ever to systematically study the subject of disabilities in the Roman world The contributors examine the topic a capite ad calcem from head to toe Chapters deal with mental and intellectual disability alcoholism visual impairment speech disorders hermaphroditism monstrous births mobility problems osteology and visual representations of disparate bodies The authors fully engage with literary papyrological and epigraphical sources while iconography and osteo archaeology are taken into account Also the late ancient evidence is taken into account

Refraining from a radical constructionist standpoint the contributors acknowledge the possibility of discovering significant differences in the way impairment was culturally viewed or assessed **Acts: An Exegetical Commentary : Volume 2** Craig S. Keener,2013-10-15 Highly respected New Testament scholar Craig Keener is known for his meticulous and comprehensive research This commentary on Acts his magnum opus may be the largest and most thoroughly documented Acts commentary available Useful not only for the study of Acts but also early Christianity this work sets Acts in its first century context In this volume the second of four Keener continues his detailed exegesis of Acts utilizing an unparalleled range of ancient sources and offering a wealth of fresh insights This magisterial commentary will be an invaluable resource for New Testament professors and students pastors Acts scholars and libraries **Miracles and Wonders** Michael E. Goodich,2017-03-02 Beginning in the late twelfth century scholastic theologians such as William of Auvergne Thomas Aquinas and Engelbert of Admont attempted to provide a rational foundation to the Christian belief in miracles bolstered by the Aristotelian theory of natural law Similarly in this period a tension appeared to exist in the recording of miracles between the desire to exalt the Faith and the need to guarantee believability in the face of opposition from heretics Jews and other sceptics As miracles became an increasingly standard part of evidence leading to canonization the canon lawyers notaries and theologians charged with determining the authenticity of miracles were eventually issued with a list of questions to which witnesses to the event were asked to respond a virtual template against which any miracle could be measured Michael Goodich explores this changing perception of the miracle in medieval Western society He employs a wealth of primary sources including canonization dossiers and contemporary hagiographical Vitae and miracle collections philosophical theological treatises sermons and canon law and ancillary sources dealing with the procedure of canonization He compares and contrasts popular and learned understanding of the miraculous and explores the relationship between reason and revelation in the medieval understanding of miracles The desire to provide a more rational foundation to the Christian belief in miracles is linked to the rise of heresy and other forms of disbelief and finally the application of the rules of evidence in the examination of miracles in the central Middle Ages is scrutinized This absorbing book will appeal to scholars working in the fields of medieval history religious and ecclesiastical history canon law and all those with an interest in hagiography **Many Convincing Proofs** Stephen S. Liggins,2016-03-21 While there have been various studies examining the contents of the evangelistic proclamation in Acts and various studies examining from one angle or another individual persuasive phenomena described in Acts e g the use of the Jewish Scriptures no individual studies have sought to identify the key persuasive phenomena presented by Luke in this book or to analyse their impact upon the book s early audiences This study identifies four key phenomena the Jewish Scriptures witnessed supernatural events the Christian community and Greco Roman cultural interaction By employing a textual analysis of Acts that takes into account both narrative and socio historical contexts the impact of these phenomena upon the early audiences of Acts that is those people who heard or read the narrative in the first

decades after its completion is determined The investigation offers some unique and nuanced insights into evangelistic proclamation in Acts persuasion in Acts persuasion in the ancient world each of the persuasive phenomena discussed evangelistic mission in the early Christian church and the growth of the early Christian church *Dictionary of Jesus and the Gospels* Joel B. Green, Scot McKnight, I. Howard Marshall, 1992-02-18 Edited by Joel B Green Scot McKnight and I Howard Marshall this reference work encompasses everything relating to Jesus and the Gospels *Gods of Our Fathers* Richard A. Gabriel, 2001-11-30 Gabriel offers a startling new look at Judaism and Christianity by attempting to trace their historical theological roots not to the revelations of God but to the common theological ancestor the religions of ancient Egypt Using new material only recently made available by archaeology Gabriel shows how the theological premises of Christianity were in existence three thousand years before Christ and how the heresy of Akhenaten became the source for Moses Judaism Gabriel begins with the challenge that the dawn of man's ethical conscience began in Egypt by 3400 BCE long before the age of revelation in the West Over the course of 3000 years Egyptian theologians developed a complete theology of trinitarian monotheism immortality of the soul resurrection and a post mortem judgment within the Osiris myth These concepts existed nowhere else in the ancient world and were passed directly to Christianity In 1200 BCE the heretic pharaoh Akhenaten abandoned Egyptian tradition and invented his own theology of a single god no immortal soul no resurrection and no post mortem judgment This tradition was passed to the West through Moses whose Judaic theology is identical to Akhenaten's

The Characterization of God in Acts Ling Cheng, 2015-02-12 Based on the plot oriented nature of the Acts narrative a key thought behind this book is how God is revealed in the deployment of characters and events God's supreme saving will and mission plan determine the development of human history as well as the narrative God's sovereign authority and power governs the movement of characters and the development of events and thus assures the fulfilment of his salvific plan From the carrying out of the divine redemptive plan emerges a God who is invisible yet perceivable dominant yet cogent and continuous yet changing *Theology as History, History as Theology* Scott Shauf, 2012-02-13 This monograph explores the theology of the Acts of the Apostles while taking seriously the status of the writing as ancient historiography What does it mean to speak of theology in a historiographical work How can this theology be apprehended What does this theology have to do with the overall character of the writing and with how the writing functioned for its original audience Acts 19 is both case study and source to generate the answers **Jesus the Messiah** Robert H. Stein, 2009-08-20 In this accessible introduction to Jesus Christ Robert Stein draws together the results of a career of research and writing on Jesus and the Gospels Now in paperback this classic textbook is clearly written ably argued and geared to the needs of students giving probing minds a sure grounding in the life and ministry of Jesus **Jesus Research** James H. Soldiering for God John F. Shean,2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects

Will Not Return Void John Allen Dearing,2021-10-28 When one considers the early Christian church one is immediately struck by the exponential growth that the church experienced The inevitable question one must ask when considering the early church s rapid rate of growth is How did it happen While social forces plagues politics and ideology competitions were certainly factors in the growth of Christianity one would be remiss not to consider the methodology behind the considerable evangelistic effort made by the patristic church This dissertation analyzes the use of Scripture in the apologetic and evangelistic writings produced by Christian leaders within the Greek patristic tradition and their belief that Scripture was the primary tool given by God for the conversion of souls
