Mirror In The Shrine American Encounters With Meiji Japan:

Mirror in the Shrine Robert A. Rosenstone, 1988 Based on the travels of Griffis Morse and Hearn in the late 1800s these stories evoke the immediacy of daily experience in Meiji Japan a nation still feudal in many of its habits yet captivating to Westerners for its gentleness beauty and pure charm Illustrated **Interpreting the Mikado's Empire** Joseph M. Henning, 2021-02-15 For more than fifty years William Elliot Griffis 1843 1928 chronicled a rapidly changing Meiji Japan and its people He was unequalled in the length of his writing career and the breadth of his work which illuminated the entire sweep of Meiji history and reached a multiplicity of American audiences A teacher in the provincial city of Fukui and later in Tokyo he reported in magazine essays on the last days of feudalism in Japan and its aspirations to become a modern nation After returning to the United States he continued to write In dozens of books and hundreds of articles he covered topics including the samurai class daily life racial theory empire and war Extending his reach even further he was a tireless public speaker and delivered thousands of lectures on Japan He described his self appointed task as interpreting Japan to America with voice and pen This anthology brings together the best of his writing offering a dynamic perspective on Meiji Japan through the eyes of a colorful and engaging writer **The Nature of History Reader** Keith Jenkins, Alun Munslow, 2004 The question of what the nature of history is is a key issue for all students of history It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested *Rethinking American History in a Global Age* Thomas Bender, 2002-05-14 In rethinking and reframing the American national narrative in a wider context the contributors to this volume ask questions about both nationalism and the discipline of history itself The essays offer fresh ways of thinking about the traditional themes and periods of American history By locating the study of American history in a transnational context they examine the history of nation making and the relation of the United States to other nations and to transnational developments What is now called globalization is here placed in a historical context A cast of distinguished historians from the United States and abroad examines the historiographical implications of such a reframing and offers alternative interpretations of large questions of American history ranging from the era of European contact to democracy and reform from environmental and economic development and migration experiences to issues of nationalism and identity But the largest issue explored is basic to all histories How does one understand teach and write a national history even as one recognizes that the territorial boundaries do not fully contain that history and that within that bounded territory the society is highly differentiated marked by multiple solidarities and identities *Rethinking American History in a Global Age* advances an emerging but important conversation marked by divergent voices many of which are represented here The various essays explore big concepts and offer historical narratives that enrich the content and context of American history The aim is to provide a history that more accurately reflects the dimensions of American experience and better connects the past with contemporary concerns for American identity

The Great Wave Christopher Benfey, 2007-12-18 When the United States entered the Gilded Age after the Civil War argues cultural historian Christopher Benfey the nation lost its philosophical moorings and looked eastward to Old Japan with its seemingly untouched indigenous culture for balance and perspective Japan meanwhile was trying to reinvent itself as a more cosmopolitan modern state ultimately transforming itself in the course of twenty five years from a feudal backwater to an international power This great wave of historical and cultural reciprocity between the two young nations which intensified during the late 1800s brought with it some larger than life personalities as the lure of unknown foreign cultures prompted pilgrimages back and forth across the Pacific In *The Great Wave* Benfey tells the story of the tightly knit group of nineteenth century travelers connoisseurs collectors and scientists who dedicated themselves to exploring and preserving Old Japan As Benfey writes A sense of urgency impelled them for they were convinced Darwinians that they were that their quarry was on the verge of extinction These travelers include Herman Melville whose *Pequod* is shadowed by hostile and mysterious Japan the historian Henry Adams and the artist John La Farge who go to Japan on an art collecting trip and find exotic adventures Lafcadio Hearn who marries a samurai's daughter and becomes Japan's preeminent spokesman in the West Mabel Loomis Todd the first woman to climb Mt Fuji Edward Sylvester Morse who becomes the world's leading expert on both Japanese marine life and Japanese architecture the astronomer Percival Lowell who spends ten years in the East and writes seminal works on Japanese culture before turning his restless attention to life on Mars and President and judo enthusiast Theodore Roosevelt As well we learn of famous Easterners come West including Kakuzo Okakura whose *The Book of Tea* became a cult favorite and Shuzo Kuki a leading philosopher of his time who studied with Heidegger and tutored Sartre Finally as Benfey writes his meditation on cultural identity seeks to capture a shared mood in both the Gilded Age and the Meiji Era amid superficial promise and prosperity of an overmastering sense of precariousness and impending peril

A Sense of the World John Gibson, Wolfgang Huemer, Luca Pucci, 2012-11-12 A team of leading contributors from both philosophical and literary backgrounds have been brought together in this impressive book to examine how works of literary fiction can be a source of knowledge Together they analyze the important trends in this current popular debate The innovative feature of this volume is that it mixes work by literary theorists and scholars with work of analytic philosophers that combined together provide a comprehensive statement of the variety of ways in which works of fiction can engage questions of worldly interest It uses the problem of

cognitive value to explore literature's contribution to ethical life literature's ability to engage in social and political critique the role narrative plays in opening up possibilities of moral aesthetic experience and selfhood This remarkable volume will attract the attention of both literature and philosophy scholars with its statement of the various ways that literature and life take an interest in one another *The houses of history* Anna Green, Kathleen Troup, 2016-08-15 The houses of history is a clear jargon free introduction to the major theoretical approaches employed by historians This innovative critical reader provides accessible introductions to fourteen schools of thought from the empiricist to the postcolonial including chapters on Marxist history Freud and psychohistory the Annales historical sociology narrative gender public history and the history of the emotions Each chapter begins with a succinct description of the ideas integral to a particular theory The authors then explore the insights and controversies arising from the application of this model drawing upon debates and examples from around the world Each chapter concludes with a representative example from a historian writing within this conceptual framework This newly revised edition of the highly successful textbook is the ideal basis for an introductory course in history and theory for students of history at all levels **Routledge Library Editions: Business and Economics in Asia**

Various, 2021-07-14 This set examines a vast range of topics covering all experiences of business and economics from across Asia Dealing with early banking systems in China the industrialisation of Korea and Taiwan the evolution of Japanese business practices economic development protectionist policies industrial investment trade tourism and a host of other topics the books collected here form a vital reference resource across a wide subject area *What is History For?* Beverley Southgate, 2006-06-01 An experienced author of history and theory presents this examination of the purpose of history at a time when recent debates have rendered the question what is history for of utmost importance Charting the development of historical studies and examining how history has been used this study is exceptional in its focus on the future of the subject as well as its past It is argued that history in the twenty first century must adopt a radical and morally therapeutic role instead of studying for its own sake Providing examples of his vision of history in post modernity Beverley Southgate focuses on the work of four major historians including up to date publications Robert A Rosenstone's study of Americans living in nineteenth century Japan Peter Novick's work on the Holocaust Sven Lindqvist's *A History of Bombing* Tzvetan Todorov's recently published work on the twentieth century This makes compulsive reading for all students of history cultural studies and the general reader as notions of historical truth and the reality of the past are questioned and it becomes vital to rethink history's function and renegotiate its uses for the postmodern age *Europe and the Asia-Pacific* Stephanie Lawson, 2003 The many points of contact and conflict about culture and identity that exist between Europe and the Asia Pacific are highlighted in this book This work surveys a variety of issues relating to culture identity and representation from an interdisciplinary perspective with contributions from sociology economics history politics international relations security studies museum studies translation studies and literary and cultural studies Each brings a different perspective to bear on

questions of culture and identity in the contemporary period and how these relate to the politics of representation

Bachelor Japanists Christopher Reed, 2016-11-15 Challenging clichés of Japanism as a feminine taste *Bachelor Japanists* argues that Japanese aesthetics were central to contests over the meanings of masculinity in the West Christopher Reed draws attention to the queerness of Japanist communities of writers collectors curators and artists in the tumultuous century between the 1860s and the 1960s Reed combines extensive archival research analysis of art architecture and literature the insights of queer theory and an appreciation of irony to explore the East West encounter through three revealing artistic milieus the Goncourt brothers and other japonistes of late nineteenth century Paris collectors and curators in turn of the century Boston and the mid twentieth century circles of artists associated with Seattle's Mark Tobey The result is a groundbreaking integration of well known and forgotten episodes and personalities that illuminates how Japanese aesthetics were used to challenge Western gender conventions These disruptive effects are sustained in Reed's analysis which undermines conventional scholarly investments in the heroism of avant garde accomplishment and ideals of cultural authenticity
