eighth largest oil reserves Europe is dependent on Russia for 25 percent of its oil and gas Russia is also positioning itself to play a similar role with respect to China The key to this strategy is a network of new oil and natural gas pipelines that Russia is in the process of constructing which will by pass the problematic Ukraine Georgia Poland and the Baltic States in the West and lock in the enormous potential of China in the East Further as the Western economies including the USA begin themselves to recover their growing energy dependence will come back into the forefront and therefore the need to ensure that Russia does not fail in its opening up of new energy resources in the Arctic and Eastern Siberia Russia is no longer a superpower in the Cold War sense of the word because its military is significantly weaker and as such is incapable of conducting a regional let alone global war against either the United States or NATO It is precisely because of its military weakness that Putin has been forced to adopt an asymmetric approach Thus the pipeline spigot and the proliferation of missiles and aircraft have become Russia's weapons of choice along with an ever growing reliance on its strategic nuclear forces to provide it with the necessary deterrent to foreign aggression In addition Putin and Medvedev have no interest in an arms race with the United States it is too costly and detracts from their priority which is economic reform From Putin s perspective America is in the process of imposing absolute security or as Joint Vision 2020 put it full spectrum dominance over the world As the sole remaining superpower the United States enjoys a massive strategic imbalance in its favor which it has used first to contain but now with the intent to control the world How NATO expansion lays the groundwork for a U S global missile defense system to contain perceived adversaries such as Russia which in turn secures the dominance of America through its Prompt Global Strike PGS capability the ability to strike anywhere on the planet with impunity within 90 minutes of the order being given by The President Thus PGS will be to the 21st Century what British Gun Boat Diplomacy was to the 19th Century In such a context Russia is forced to respond asymmetrically *United States Code 2012 Edition* Supplement IV, United States Code: Title 10: Armed forces [sections] 1431-7921, 2013 Preface 2012 edition The United States Code is the official codification of the general and permanent laws of the United States The Code was first published in 1926 and a new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First session enacted between January 3 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel
