Lloyd W Trushel,2020-08-02 There are many books on how to succeed in F I Experts are everywhere trying to give you advice on how to be successful You see magazines blogs podcasts and even TV shows telling you how to maximize your profits and overcome any objection Yet something is still missing Customer satisfaction is incredibly low People dislike the buying process Nearly 6 out of every 10 customers skip buying a vehicle service contract from their selling dealer while third party competition is thriving on selling to those same customers With the advent of DealerTrack and RouteOne coupled with the evolution of the desk submitting deals before F I involvement even begins people should be delighted with the overall transaction times but they re not Another problem we face is that most F I training offered today follows an old model of trying to simply overcome objections The focus on objections made F I development companies a solution for dealers wanting to create their own F I departments in the 1970 s And it worked They created an industry But the world keeps moving Today endlessly debating with customers by overcoming every objection is a problem We must be as Bruce Lee said Like water and adapt to each customer individually For instance today a menu presentation with every product bundled into the Complete or Platinum column may be the best way to present your payments or it may not be Do you know what sales process is most effective in YOUR store Or are you just doing what the trainer tells you works best More importantly can they bring data Can they demonstrate effective results in YOUR store If not why are they giving you advice [Catalog of Copyright Entries.](#)
