Krueger, 1997-07-24 *Struggling with focus groups questions* Asking the right questions is critical in focus group interviewing *Developing Questions in a Focus Group* describes a practical process for identifying powerful themes and offers an easy to understand strategy for translating those themes into questions Richard A Krueger suggests ways of categorizing phrasing and sequencing focus group questions Going beyond material presented in his earlier books Krueger shares ideas for questions that get participants actively involved in the focus group interview by asking participants to make lists create report cards sort pictures draw cut and paste or participate in a mini debate The results of these activities not only yield insightful information but are also interesting and fun This book helps make the process of developing good questions doable by outlining a process and offering many examples After reading this book your focus groups will never be the same

Basic and Advanced Focus Groups David L. Morgan, 2018-07-13 *Basic and Advanced Focus Groups* illustrates both the different types of focus groups and how to decide among those options in order to produce the most effective focus groups possible A variety of approaches to doing research with focus groups gives readers the tools to develop and examine their research designs starting with the basics Advanced coverage in each chapter takes an in depth look at topics such as moderating focus groups using mixed methods and working with different sizes of groups By taking a practical applied approach the author gives even novice students the knowledge and confidence to design and conduct effective focus group research while simultaneously providing more advanced researchers with the tools and knowledge to refine their current practices **Focus Groups** Graham R. Walden, 2008-07-07 This volume is the first of two

volumes that address the most recent ten years 1997-2006 of focus group studies and research literature. Volume one provides coverage of the arts and humanities, social sciences, and the nonmedical sciences, and volume two concentrates on the medical and health sciences. These volumes cover the English language academic literature: books, chapters in books, journal articles, and significant pamphlets available in libraries via interlibrary loan and online. A variety of materials are included: instructional guides, handbooks, reference works, textbooks, and academic journal literature. In *Focus Groups*, Volume I, the following subject disciplines have been considered: in the arts and humanities, linguistics, music, religion, and sports; and leisure studies; in the social sciences, anthropology, business, cartography, communication, demography, education, law, library science, political science, psychology, and sociology; and in the non-medical sciences, agriculture, biology, engineering, environmental sciences, and physics. The selected entries have a minimum of four pages and include 29 books, 50 book chapters, 349 articles, and 10 pamphlets for a total of 438 entries. An appendix includes the titles of the 245 journals cited, along with the appropriate entry numbers for each. Author and subject indexes provide access to the contents, with the subject index providing access to unique terms. The detailed contents pages are designed to enable the reader to quickly find appropriate entries through the use of extensive and detailed subheadings.
