Dr. Jan Friedman,2023-06-02 Twenty some years ago most people did not know about Gender Identity Theory There has been a unified strategy launched in most Western countries to teach Gender Gender Identity Theory in school Surprisingly the facts are that the majority of people seeking Gender Affirming Care are teenage girls who discover usually while in school that

they are in the wrong body transgender The side effect of Gender Affirming Care the recommended treatment is that most who receive it are sterilized cannot have biological children Why would any government want young people to believe in Gender Identity Theory This book gives the answer and the answer is fully supported by the facts included in the book Beyond the emotional cry for transgender rights is the truth and this book reveals the facts and the truth Healing Our Autistic Children Julie A.
