Inflection 06: Originals Sir Peter Cook, Alison Brooks, Beatriz Colomina, Sean Godsell, Adam Peacock, 2019-09-16 Architects are expected to create original ideas resulting in a unique bespoke design. With the rise of Modern Architecture originality became ingrained in perceptions of good design. As a result originality has become a barometer against which we measure the value of design. However technology today allows for ease of replication and copies thus originality in design has become an ostensibly hollow prospect. *Originals* gathers a wide range of responses varied in their opinions and approaches to originality and authorship in design and architecture. *Inflection* is a student run design journal based at the Melbourne School of Design University of Melbourne. Born from a desire to stimulate debate and generate ideas it advocates the discursive voice of students academics and practitioners. Founded in 2013 *Inflection* is a home for provocative writing a place to share ideas and engage with contemporary discourse.
