Nice New Construction Two More Stories:

Electricity, 1896 **Your Day in Court** Bradley J. Franks, Robert C. Simpson, 2023-01-18 For those Americans who know the difference between a U S Citizen and a true American Remember U S Policies Statutes Codes or Ordinances do not apply to Americans that exercise their rights set forth by the U S Constitution Those who come from a different Country apply for Citizenship become U S citizens The government has forgotten these facts and will be held accountable for their crimes against Americans **From Al-Andalus to Monte Sacro** Dolores Luna Guinot, 2014-03-06 During the time he spent in the Portuguese islands of Porto Santo and Madeira Cristopher Columbus a navigator from Genoa was in charge of a dying sailor from Castile whose caravel had been carried by the current from the Gulf of Guinea to a remote sea possibly the Caribbean On his deathbed this man had told Columbus the secret of some lands where Siberians had arrived during the Pleistocene and some documents about some possible previous trips This sailor assured that such lands he had achieved carried by the currents were the same ones he was referring to When Columbus arrived in Spain he tried to convince the Crown of Castile about his projects which were precisely the same ones that Isaiah had prophesied as destined for getting the limits of the horizons During his description Columbus looked so sure that both the Queen Isabel and the King Fernando wondered whether he was trying to conceal a proved reality a mystery he took to his grave When Columbus asked them for a subsidy Fernando el Catlico commented him that coffers were empty at that point as they had just subjugated the whole Al Andalus after the seizure of Granada and therefore the defeat of the most unlucky Nasrid king Boabdil known as the little man Due to the Spanish explorers of the 15th century Spain became the biggest commercial power amongst the European countries They built up settlements which would last until three centuries later in a colonizing expansive process until the loss of Spanish power on such territories from the decade of 1810s on when the Independence began Since the late 18th century until the early 19th Century the West witnessed a series of chain revolutions which affected Western Europe and Spanish America at the same time The invasion of Napoleon Francisco de Miranda Simon Bolivar Masonic lodges together with envies betrayals or lovers make this book to be a thrilling adventure based on historic real **America's Textile Reporter**, 1908 **The Story of the Great War (Complete)** Various Authors, What lesson will America draw from the present Great War Must she see the heads of her own children at the foot of the guillotine to realize that it will cut or will she accept the evidence of the thousands which have lain there before Will she heed the lesson of all time that national unpreparedness means national downfall or will she profit from the experience and misfortunes of others and take those needed measures of preparedness which prudence and wisdom dictate In a word will she draw any valuable lessons from the Great War This is the question which is so often asked As yet there is no answer It is the question uppermost in the minds of all those who are intelligently interested in our country's welfare and safety It is the question which vitally concerns all of us as it concerns the defense and possibly the very existence of our nation The answer must be Preparedness If we are to live

preparedness to oppose the force of wrong with the strength of right Will it be That s the question Or will America drift on blind to the lessons of the world tragedy heedless of consequences concerned with the accumulation of wealth satiated with a sense of moral worth which the world does not so fully recognize planning to capture the commerce of the warring nations and expecting at the same time to retain their friendship and regard Let us hope that in the light of what is and as a preparation against what may be the answer will be characteristic of a great people peaceful but prudent and foreseeing that it will be thorough carefully thought out preparedness preparedness against war A preparedness which if it is to be lasting and secure must be founded upon the moral organization of our people an organization which will create and keep alive in the heart of every citizen a sense not only of obligation for service to the nation in time of war or trouble but also of obligation to so prepare himself as to render this service effective An organization which will recognize that the basic principle upon which a free democracy or representative government rests and must rest if they are to survive the day of stress and trouble is that with manhood suffrage goes manhood obligation for service not necessarily with arms in hand but for service somewhere in that great complex mass which constitutes the organization of a nation s might and resources for defense organization which will make us think in terms of the nation and not those of city State or personal interest organization which will result in all performing service for the nation with singleness of purpose in a common cause preparedness for defense preparedness to discharge our plain duty whatever it may be Such service will make for national solidarity the doing away with petty distinctions of class and creed and fuse the various elements of this people into one homogeneous mass of real Americans and leave us a better and a stronger people Once such a moral organization is accomplished the remaining organization will be simple This will include an organization of transportation on land and sea and of communications An organization of the nation s industrial resources so that the energy of its great manufacturing plants may be promptly turned into making what they can best make to supply the military needs of the nation By military needs we mean all the complex requirements of a nation engaged in war requirements which are many of them requirements of peace as well as of war It will also include a thorough organization of the country s chemical resources and the development thereof so that we may be as little dependent as possible upon materials from overseas At present many important and essential elements come from overseas nations and would not be available in case of loss of sea control

Southern Homes and Plan Books Sarah J. Boykin, Susan M. Hunter, 2018-08-01 Southern Homes and Plan Books showcases the architectural legacy and design philosophy of Leila Ross Wilburn 1885 1967 a legacy that includes hundreds of houses in a variety of popular house styles from bungalows to ranch houses built using Wilburn's plan books during the first six decades of the twentieth century Wilburn opened her own firm in Atlanta in 1908 and practiced until her death in 1967 She published nine plan books that offered mail order house designs to contractors builders and prospective homeowners and allowed them the ease of choosing a preconceived design and construction plan Sarah J Boykin and Susan M Hunter provide a survey of the southern homes built from Wilburn's plan books examining Wilburn's architectural legacy and her achievements as a plan book architect The book provides beautiful photographs of houses built from her plans along with illustrations from the plan books themselves and other related documents from the time Readers can thus see how her designs were realized as individual houses and also how they influenced the development of some of the Atlanta area's beloved historical neighborhoods most notably Druid Hills Morningside Virginia Highland and Candler Park as well as the McDonough Adams Kings Highway MAK Historic District in Decatur Today Wilburn's houses are enjoyed as appealing historic homes and represent some of the richest examples of southern vernacular architecture to emerge from the plan book tradition

Second Century of the Skyscraper Council on Tall Buildings & Urban, 2012-12-06 tenant is looming in importance The owner is having more influence on the building As Gerald D Hines has said there are indications that the desire for more discretionary time will lead to more residential high rises close to or in the midst of downtown office buildings Downtown living could become the desired alternative Tall buildings will be approached increasingly from the standpoint of an urban ecology that what happens to a part can influence the whole Providing for public as well as private needs in a tall building project is just one example facilities for schools shops religious and other needs More attention will be paid to maintaining streets as lively and interesting places Will a new world's tallest be built Will we go a mile high The answer is probably yes to the first no to the second With the recent spate of super tall buildings on the drawing boards going to greater heights was in the back of many people's minds at the Chicago conference But in the United States at least buildings of 70 to 80 stories would appear to provide needed space consistent with economy The future then is described in depth by papers that go into specific areas
