Mobile technology in policing Great Britain: National Audit Office,2012-01-27 As the benefits of a programme to equip frontline police officers with mobile devices do not extend beyond a basic level for most forces then value for money has not yet been achieved from

the 80 million of expenditure While in many forces mobile devices enable officers to spend more time out of their stations cash savings have been limited and only one in five forces have used the devices effectively to improve their business and operational processes The business case for the Mobile Information Programme funded by the Home Office and managed by the National Policing Improvement Agency under the direction of a programme board focused upon the swift delivery of mobile devices and by December 2010 around 41 000 had been rolled out considerably ahead of schedule Although in reality the Agency cannot mandate forces and has little control over each force s investment decision not enough consideration was given to how forces would use the mobile technology how much local spending was required or how realistic were the announced deadlines While the Programme did not explicitly set out to deliver cashable savings these should have followed from objectives to reduce bureaucracy increase efficiency and contribute to better policing Of the 32 forces responding to an NAO survey only ten claimed some form of cashable savings and these are relatively minor However some forces are predicting greater savings in the future for example by reducing control room costs 22 forces responding to the survey cited drawbacks

Technology-led Policing Evelien De Pauw,Paul Ponsaers,Kees van der Vijver,Willy Bruggeman,Piet Deelman,2011 Technology has always played an important role in the performance of police tasks In recent years that role has not only expanded but has also been renewed On one hand technology plays a role in supporting policing closed circuit television scanning equipment technical methods of detection etc On the other hand new technology offers opportunities to commit crime particularly in the sphere of information technology which requires constant adjustments of the police in their investigation methods The use of technology raises many interesting questions There are important privacy issues There are also consequences of investing in technology Additionally are police investigations keeping sufficiently up to date with technological developments including advances in computer technology as well as strong developments in the sphere of natural science This book originally a volume of the Journal of Police Studies examines the concerns and necessity for technology in poli

Policing Organized Crime Petter Gottschalk, 2009-08-26 When criminal activity is as straightforward as a child's game of cops and robbers the role of the police is obvious but today's bad guys don't always wear black In fact the most difficult criminals to cope with are those who straddle the gray divide between licit and illicit activity Many of these nefarious sorts operate on the fringe of society

The Future of Policing Jennifer M. Brown, 2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing

areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations

Mobile Technology and Social Transformations Stefanie Felsberger,Ramesh Subramanian,2021-05-03 This book investigates the ways in which the mobile telephone has transformed societies around the world bringing both opportunities and challenges At a time when knowledge and truth are increasingly contested the book asks how mobile technology has changed the ways in which people create disseminate and access knowledge Worldwide mobile internet access has surpassed desktop access and it is estimated that by 2022 there will be AN excess of 6 billion mobile phone users in the world This widespread proliferation raises all sorts of questions around who creates knowledge how is that knowledge shared and proliferated and what are the structural political economic and legal conditions in which knowledge is accessed The practices and power dynamics around mobile technologies are location specific They look different depending on whether one chooses to highlight the legal social political or economic context Bringing together scholars journalists activists and practitioners from around the world this book embraces this complexity providing a multifaceted picture that acknowledges the tensions and contradictions surrounding accessing knowledge through mobile technologies With case studies from Hong Kong South Korea India Syria Egypt Botswana Brazil and the US this book provides an important account of the changing nature of our access to knowledge and is key reading for students researchers activists and policy makers with an interest in technology and access to knowledge communication social transformation and global development

Technology and Law Enforcement Robert L. Snow,2007-07-30 Although for much of the mid 20th century police departments across the U S had been reluctant to embrace new technology depending instead on traditional police techniques detectives in Los Angeles finally departed from this practice when they found themselves stymied in their attempts to solve the infamous Night Stalker serial murder case This murderer and rapist had gone on a deadly rampage during the spring and summer of 1985 and though the police used every traditional police technique they could not solve the crime Finally in desperation they decided to do something different use what was then the latest cutting edge technology This new technology the laser print finder worked perfectly and the police arrested the Night Stalker the next day Following this astonishing success police departments across the nation suddenly began clamoring to obtain all kinds of new technology to assist them in solving crimes This rush to embrace the latest technology hasn t slowed in the intervening 21 years This book takes readers through every major branch of law enforcement and shows how technology has radically changed police department operations during the last two decades It also shows how these changes continue today as technology advances and refines techniques already in practice Beginning

with the Night Stalker case the author illustrates how the use and reliance on new technologies in solving crimes has made policing and detective work more accurate and efficient in capturing and convicting criminals and courts more recently in releasing innocents convicted of crimes Capitalizing on the interest in all things forensic this book illuminates the behind the scenes technologies that go into solving crimes and keeping dangerous criminals off the street Snow covers DNA and fingerprint technologies vehicle technologies undercover work bomb detection and other methods Using many real life examples and first hand anecdotes he shows how technology has become part and parcel of criminal justice efforts to solve crimes

European Journal of Policing Studies ,2018-07-31 Contents Introduction Antoinette Verhage Lieselot Bisschop and Wim Hardyns br Articles How to Police a Porous Fortress Monica den Boer 1 Abstract The purpose of this article is to provide an overview of the way in which the European Union has gradually but steadily built a security architecture based on the control of mobility and borders Different logics of policing are interwoven in several projects which are strongly interdependent with technological innovation Furthermore the European policing of mobility is primarily performed by mounting surveillance both inside and beyond European borders by means of which all forms of movement transactions travelling etc are subjected to intensive monitoring by multiple actors who are interlinked through strategies and systems The main finding is that border policing is shifting in a fundamental way from fixed to fluid from territorial to virtual and from physical to technological Hence paradoxically though mobility is strongly promoted as one of the main virtues of the European Union Europe s precautionary protection may be at ill ease with the free movement of people The article seeks to stimulate the knowledge and debate about deeper shifts in Europe s security apparatus and develops this from a law enforcement perspective Keywords Europe borders security mobility technology 1 Academic Dean at the Police Academy of The Netherlands Member of the Committee on European Integration of the Advisory Council on International Affairs and Visiting Professor at the College of Europe in Bruges Police Science in Germany History and New Perspectives Joachim Kersten 1 and Ansgar Burchard 2 Abstract In the German speaking academic world Police Science Polizeiwissenschaft is a fairly new and little known area of social science Accordingly the academic status of police science is anything but firmly established but rather at a hybrid stage of development The very combination of policing and academic study research seems to remain largely incompatible not only to police managers but also to main stream sociology German police science differs substantially from the Anglo American Australian approach One main difference pertains to legal traditions others are due to historical and cultural developments that will be taken up in this descriptive essay However Anglo American Australian police theories have a lot to offer to German and European police scientists and this will be demonstrated For a future common approach to an evolving European police science similar descriptions will be required from other European countries to establish a comparative foundation of joint EU police studies Some of the principal dimensions of such a comparison will be sketched in this essay It concludes with a presentation of empirically based police studies carried out by instructors and
