Handbook of Effective Inclusive Schools James McLeskey, Fred Spooner, Bob Algozzine, Nancy, L. Waldron, 2014-05-16. Over the last decade, the educational context for students with disabilities has significantly changed, primarily as a result of mandates contained in NCLB and IDEA. The purpose of this book is to summarize the research literature regarding how students might be provided classrooms and schools that are both inclusive and effective. Inclusive schools are defined as places where students with disabilities are valued and active participants in academic and social activities and are given supports that help them succeed. Effectiveness is addressed within the current movement toward multi-tiered systems of support and evidence-based practices that meet the demands of high-stakes accountability.

Including Children with Special Needs in Early Childhood Programs Jan S. Wilbers, 1994. VOL 6 of the NAEYC Research Practice series.

Handbook of Response to Intervention and Multi-Tiered Systems of Support Paige C. Pullen, Michael J. Kennedy, 2018-10-16. Of the many issues facing special education and general education today, it is difficult to imagine one more important or timely than response to intervention (RTI). Almost overnight, RTI has become standard practice across the nation. Unfortunately, RTI remains ill-defined, falls far short of its evidence-based practice goal, is almost invariably misused, and often results in more harm than good. Nevertheless, as a conceptual framework, RTI has great potential for ensuring that students with disabilities receive appropriate evidence-based instruction. The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention (RTI) and its relation to multi-tiered systems of support (MTSS) in both special education and general education. Although the two terms are currently used interchangeably, distinct differences exist between them. Therefore, chapters are dedicated to distinguishing the two concepts, RTI and MTSS, and describing each one's unique role in both general and special education. In addition, the authors

recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention School Programs in Speech-language Elizabeth A. Neidecker, Jean Blosser, 1993 Practical and down to earth this text provides an overview of the organization and administration of a speech language pathology program in educational settings and focuses not only on what is expected of the school pathologist but what the pathologist can expect of the school
