Hagia Sophia, 1850-1950 Robert S. Nelson, 2004-07-14 Hagia Sophia the Church of Holy Wisdom sits majestically atop the plateau that commands the straits separating Europe and Asia Located near the acropolis of the ancient city of Byzantium this unparalleled structure has enjoyed an extensive and colorful history as it has successively been transformed into a cathedral mosque monument and museum In Hagia Sophia 1850 1950 Robert S Nelson explores its many lives Built from 532 to 537 as the Cathedral of Constantinople Hagia Sophia was little studied and seldom recognized as a great monument of world art until the nineteenth century and Nelson examines the causes and consequences of the building s newly elevated status during that time He chronicles the grand dome s modern history through a vibrant cast of characters emperors sultans critics poets archaeologists architects philanthropists and religious congregations some of whom spent years studying it others never visiting the building But as Nelson shows they all had a hand in the recreation of Hagia Sophia as a modern architectural icon By many means and for its own purposes the West has conceptually transformed Hagia Sophia into the international symbol that it is today While other books have covered the architectural history of the structure this is

the first study to address its status as a modern monument With his narrative of the building's rebirth Nelson captures its importance for the diverse communities that shape and find meaning in Hagia Sophia His book will resonate with cultural architectural and art historians as well as with those seeking to acquaint themselves with the modern life of an inspired and inspiring building Sacred Sites of Wisconsin John-Brian Paprock, Teresa Peneguy Paprock, 2001 Take time out from life's fast pace to reflect or pray at one of more than 400 sites around Wisconsin that are noted places of worship and pilgrimage Included are churches temples synagogues cemeteries effigy mounds and more Learn about each site's history what makes it sacred and why it is worth a visit **Theology and Form** Nicholas Denysenko, 2017-05-30 How do space and architecture shape liturgical celebrations within a parish In *Theology and Form Contemporary Orthodox Architecture in America* Nicholas Denysenko profiles seven contemporary Eastern Orthodox communities in the United States and analyzes how their ecclesiastical identities are affected by their physical space and architecture He begins with an overview of the Orthodox architectural heritage and its relation to liturgy and ecclesiology including topics such as stationary liturgy mobility of the assembly the symbiosis between celebrants and assembly placement of musicians and festal processions representative of the Orthodox liturgy Chapters 2-7 present comparative case studies of seven Orthodox parishes Some of these have purchased their property and built new edifices Denysenko analyzes how contemporary architecture makes use of sacred space and engages visitors Others are mission parishes that purchased existing properties and buildings posing challenges for and limitations of their liturgical practices The book concludes with a reflection on how these parish examples might contribute to the future trajectory of Orthodox architecture in America and its dialogical relationship with liturgy and ecclesial identity **Frank Lloyd Wright and the Meaning of Materials** Terry L. Patterson, 1994 In his richly illustrated *Frank Lloyd Wright and the Meaning of Materials* Patterson takes an unprecedented look at more than 240 of Wright's buildings and projects the justly celebrated triumphs as well as lesser known but no less telling structures In the book's core chapters each devoted to a specific material he objectively analyzes Wright's handling of wood stone brick concrete block metals concrete and glass Methodically he examines whether the form workability strength and durability of each material its essence has been emphasized subdued or misrepresented in these tangible architectural expressions Throughout Patterson uniquely juxtaposes the reality of Wright's overall material sensitivity with nearly 200 of Wright's own pronouncements on the subject For the first time architects designers and art historians see in the truest sense whether Wright's final achievements are consonant with his ambitious aims Importantly readers are encouraged to reach their own conclusions which may differ from Patterson's own deeply felt judgments Frank Lloyd Wright Donald Langmead, 2003-09-30 Includes not only the literature on Wright from 1886 to the present but also his own extensive writings Covers English and foreign language sources including books monographs anthologies exhibition catalogues book and exhibition reviews periodical articles and obituaries Frank Lloyd Wright, Architect Frank Lloyd Wright, Terence

Communities of Frank Lloyd Wright Myron A. Marty, 2009 Despite the numerous studies of Frank Lloyd Wright's life and architecture little has been published about his life in relation to the communities that dominated his life Wright a fervent believer in individualism and an ardent advocate of democracy worked in communities throughout his career of more than six decades These communities which he led with unquestioned authority made possible his extraordinary productivity They also helped sustain his genius provided him with crucial social outlets and made it possible for him to remain a creative force outside the mainstream of American architecture until his death at age 91 Almost immediately after arriving in Chicago in 1887 Wright began working in the company of architects and draftsmen most notably Joseph Lyman Silsbee Dankmar Adler and Louis Sullivan In 1893 he opened his own practice in downtown Chicago and formed relationships with communities of young architects and draftsmen there Five years later Wright moved his venture to his home and studio in Oak Park Although his community of coworkers there was highly productive in 1909 he abandoned them his practice and his family turned his projects over to others and left for Europe with his mistress In the next twenty years he formed incidental communities wherever his work took him including Europe Japan California and Arizona while maintaining his base at Taliesin his home near Spring Green Wisconsin In 1932 after years of hardship Wright and his third wife Olgivanna founded the Taliesin Fellowship a community of apprentices and assistants Five years later the Fellowship began to spend winters at Taliesin West a camp he designed in Scottsdale Arizona When Wright died in 1959 his widow became the Fellowship's unchallenged leader and she remained so until her death 26 years later Marty's groundbreaking work is neither a biography of Wright nor a study of his architecture rather it is the story of his life in communities particularly the Taliesin Fellowship This study will be of interest to Wright scholars and enthusiasts architects architectural historians and architecture students
