Hudson, 2004 Use postcards to present a pictorial history of Chicago's skyscrapers from the Home Insurance Building completed in 1885 to the tallest skyscraper in North America at 110 stories **Old New York in Picture Postcards** Jack H. Smith, 1999-07-20 Views of early twentieth century New York with accompanying text for the city buff and postcard collector alike *Rise of the New York Skyscraper, 1865-1913* Sarah Bradford Landau, Carl W. Condit, 1999-01-01 The invention of the New York skyscraper is one of the most fascinating developments in the history of architecture This authoritative book chronicles the history of New York's first skyscrapers challenging conventional wisdom that it was in Chicago and not New York that the skyscraper was born 206 illustrations *The American Skyscraper*,

1850-1940 Joseph J. Korom, 2008 The skyscraper is an American invention that has captured the public's imagination for over a century. The tall building is wholly manmade and borne in the minds of those with both slide rules and computers. This is the story of the skyscraper's rise and the recognition of those individuals who contributed to its development. This volume is unique; its approach, information, and images are fresh and telling. The text examines America's first tall buildings, the result of twelve years of in-depth research by an accomplished and published architect and architectural historian. Over 300 compelling photographs, charts, and notes make this the ultimate tool of reference for this subject. Biographies woven throughout with period norms, politics, and lifestyles help to place featured skyscrapers in context. Quite simply, there is no book like this. The text, carefully and insightfully written, is clear, concise, and easily digestible, the text being the product of well-documented original research written in an informative tone. *The American Skyscraper 1850-1940: A Celebration of Height* is a richly documented journey of a fascinating topic and it promises to be a superb addition to libraries, schools of architecture, students of architecture, and lovers of art. **Skyscrapers** George H. Douglas, 2004-08-19 This history of skyscrapers examines how these tall buildings affected the cityscape and the people who worked in, lived in, and visited them. Much of the focus is rightly on the architects who had the vision to design and build America's skyscrapers, but attention is also given to the steelworkers who built them, the financiers who put up the money, and the daredevils who attempted to conquer them in some inexplicable pursuit of fame. The impact of the skyscraper on popular culture, particularly film and literature, is also explored. *Postcards: A Golden Age Treasury* Pasquale De Marco, 2025-08-13 *Postcards: A Golden Age Treasury* is the definitive guide to the Golden Age of Postcards, a period of unprecedented creativity and popularity for this charming form of communication. New York in Cinematic Imagination Vojislava Filipcevic Cordes, 2020-06-11 New York in Cinematic Imagination is an interdisciplinary study into urbanism and cinematic representations of the American metropolis in the twentieth century It contextualizes spatial transformations and discourse about New York during the Great Depression and the Second World War examining both imaginary narratives and documentary images of the city in film The book argues that alternating

Seeing Ghosts Karen Engle, 2009-04-01 On September 11 more people clicked on documentary news photographs than on pornography for the first and only time in the history of the Internet reports writer David Levi Strauss The archive of images associated with the tragic events of 9 11 merits careful analysis Artist Damien Hirst has suggested that the attacks were designed to be viewed The thing about 9 11 is that it's kind of an artwork in its own right It was wicked but it was devised in this way for this kind of impact It was devised visually Starting from the tremendous fascination with images of 9 11 Karen Engle asks what in the context of a national trauma makes an image appropriate or scandalous exploring how diverse visual media have been mobilized in political projects of identification and personal narratives of empathy Focusing on themes of memory mourning and history Engle examines sculptural photographic and new media responses to the 9 11 attacks in both contemporary and historical contexts considers the public's reaction to these visual productions and suggests that earlier presentations of America at war play a pivotal role in the representations of 9 11 in both official and popular media *Seeing Ghosts* is a groundbreaking theoretical study of how we remember how we mourn and how images of a particular event influence our imagination of the future

Public Space and the Ideology of Place in American Culture, 2009-01-01 We typically take public space for granted as if it has continuously been there yet public space has always been the expression of the will of some agency person or institution who names the space gives it purpose and monitors its existence And often its use has been contested These new essays written for this volume approach public space through several key questions Who has the right to define public space How do such places generate and sustain symbolic meaning Is public space unchanging or is it subject to our subjective perception Do we given the public nature of public space have the right to subvert it These eighteen essays including several case studies offer convincing evidence of a spatial turn in American studies They argue for a re visioning of American culture as a history of place making and the instantiation of meaning in structures boundaries and spatial configurations Chronologically the subjects range from Pierre L Enfant s initial

majestic conceptualization of Washington D C to the post modern realization that public space in the U S is increasingly a matter of waste Topics range from parks to cities to small towns from open air museums to airports encompassing the commercial marketing of place as well as the subversion and re possession of public space by the disenfranchised Ultimately public space is variously imagined as the site of social and political contestation and of aesthetic change
