When MBAs Rule the Newsroom Doug Underwood, 1995 Writing with anger but with a deep

affection for the trade he examines the growing economic pressures within the industry the roots of the managerial revolution and the impact of marketplace journalism on the operation of the newsroom and employee morale *Innovation in the Media* Francisco J. Pérez-Latre, Alfonso Sánchez-Tabernero, 2022-03-03 The media are at the end of a cycle and at the beginning of a new model that is still unpredictable For decades the industry enjoyed solid profits a certain tranquillity and clear rules The presence of high barriers to entry hindered the progress of competitors and several key markets were in fact oligopolies This book tells how a stable industry was buffeted by winds that seriously threatened its essential pillars Free access and Internet development caused a dramatic drop of the value of the contents The public could often find information and entertainment at no cost therefore beginning to move away from the media that were poorly differentiated and predictable in terms of subjects and approaches The authors do not restrict themselves to writing a chronicle of those transformations they deepen the causes and propose solutions In their view companies in the sector have lacked the discipline necessary to keep pace with innovation adapt to change and make learning a constant and priority activity The industry needs better leaders managers with vision who can take risks and break the monotonous cycle of systematic imitation of success formulas that already belong to the past **Management and Innovation in the Media Industry** Cinzia Dal Zotto, Hans van Kranenburg, 2008-12-28 This comprehensive book covers relevant issues on how media companies are currently embracing innovation the levels at which they are doing so and how innovation can help media companies to meet their development needs in the future The primary focus of this study is the relationship between management and innovation in the media industry The book evaluates the importance and the role of innovation within the media industry and helps identify and evaluate the drivers of innovation The contributors demonstrate and build upon an understanding of the issues and strategies that bind media firms to new processes and technologies and offer clear guidelines on how media companies can accelerate growth through effective internal and external collaboration Management and Innovation in the Media Industry highlights those issues that influence strategies organizational structures media content management and public interest within media firms This unique study offers both new theoretical and empirical insights on decision making aspects of innovation relevant for those executives and policy makers operating within the media or related industries It will be of great interest to academics and students in the fields of communication and journalism as well as innovation management **Gatekeeping Theory** Pamela J. Shoemaker, Timothy Vos, 2009-09-10 Gatekeeping Theory examines the process by which the billions of messages that are available in today's media world get cut down and transformed into the hundreds of messages that reach a given person on a given day *Roll! nonprofits to staff owned cooperatives and hedge fund control The variations in market models have frayed the tenets of professionalization with unique work cultures emerging from each organization s focus on its mission and the implantation of its own processes and ethical guidelines As a result the field of American journalism no longer shares uniform newsgathering practices and a common identity a break with the past that affects what information we consume today and what the press will become tomorrow An inside look at a fracturing profession The Organization of Journalism illuminates the institution s expanding impact on newsgathering and the people who practice it **Crime and Local Television News** Jeremy H.
