Enduring Shame

Heather Brook Adams,2022-05-17 A study of the rhetorical power of shame and its effect on reproductive politics Not long ago unmarried pregnant women in the United States hid in maternity homes and relinquished their illegitimate children to more deserving two parent families all to conceal shameful pregnancies Although times have changed reproductive politics remain fraught In *Enduring Shame* Heather Brook Adams recasts the 1960s and 70s an era of presumed progress as a time when expanding reproductive rights were paralleled by communicative practices of shame that cultivated increasingly public interventions into unwed and teen pregnancy and new forms of injustice Drawing from personal interviews archival documents legal decisions public policy journalism memoirs and advocacy writing Adams articulates how the rhetorical power of shame persuaded the American public to think about reproduction sexual righteousness and unwed pregnancy Despite the aspirational goals of reproductive liberation public sentiment frequently reflected supremacist beliefs regarding racial economic and moral fitness notions that informed new public policy *Enduring Shame* maps a range of experiences across these decades from women s experiences in homes for unwed mothers to policy and legal changes that are typically understood as proof of shame s dissipation including Title IX legislation and *Roe v Wade* Rhetorical historiography and questions of reproductive justice guide the analysis and women s testimonies provide essential perspectives and context Through these histories Adams articulates a network of language affect and embodiment through which shame moves expands rhetorical understandings of the discursive power of the identities of woman and mother and considers how the gendered raced and classed aspects of shame can help us understand and support reproductive dignity *Enduring Shame* recovers a misunderstood part of women s recent history by considering why reproductive politics continue to be so volatile despite previous gains and why shame still figures centrally in discourse about women s reproductive and sexual freedoms

School Choice and the Betrayal of

Democracy Robert Asen, 2021-10-05 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking School Choice and the Betrayal of Democracy features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality This book is essential reading for policymakers advocates of public education citizens and researchers

Birth controlled Amrita Pande, 2022-06-14 Birth controlled analyses the world of selective reproduction the politics of who gets to legitimately reproduce the future through a cross cultural analysis of three modes of controlling birth contraception reproductive violence and repro genetic technologies It argues that as fertility rates decline worldwide the fervour to control fertility and fertile bodies does not dissipate what evolves is the preferred mode of control Although new technologies like those that assist conception or allow genetic selection may appear to be an antithesis of other violent versions of population control this book demonstrates that both are part of the same continuum All population control policies target and vilify women Black women in particular and coerce them into subjecting their bodies to state and medical surveillance Birth controlled argues that assisted reproductive technologies and repro genetic technologies employ a similar and stratified burden of blame and responsibility based on gender race class and caste To empirically and historically ground the analysis the book includes contributions from two postcolonial nations South Africa and India examining interactions between the history of colonialism and the economics of neoliberal markets and their influence on the technologies and politics of selective reproduction The book provides a critical interdisciplinary and cutting edge dialogue around the interconnected issues that shape reproductive politics in an ostensibly post population control era The contributions draw on a breadth of disciplines ranging from gender studies sociology medical anthropology politics and science and technology studies to theology public health and epidemiology facilitating an interdisciplinary dialogue around the interconnected modes of controlling birth and practices of neo eugenics

Mothering Rhetorics Lynn O'Brien Hallstein, 2020-03-03 Once only a topic among women in the private sphere motherhood and mothering have become important intellectual topics across academic disciplines Even so no book has yet devoted a sustained look at how exploring mothering rhetorics the rhetorics of reproduction rhetorics about the reproductive function of women mothers and reproducing rhetorics the rhetorical reproduction of ideological systems and logics of contemporary culture expand our understanding of mothering motherhood communication and gender *Mothering Rhetorics* begins to fill this gap for scholars and teachers interested in the study of mothering rhetorics in their historical and contemporary permutations The

contributions explore the racialized rhetorical contexts of maternity how fixing food is thought to fix families while also regulating maternal activities and identity how Black female breastfeeding activists resisted the exploitation of African American mothers in Detroit how women in pink collar occupations both adhere to and challenge maternity leave discourses by rhetorically positioning their leaves as time off and disability identifying verbal and nonverbal shaming practices related to unwed motherhood during the mid twentieth century and redefining alternative postpartum placenta practices This book was originally published as a special issue of Women's Studies in Communication

After the Happily Ever After Linda Rose Ennis, 2017 This book is about the two tiered system and invisible imbalance that operates within the framework of the family It is about the fantasy of the happily ever after which the wedding industry promotes and Western society reinforces Why are we hanging onto this faux happiness at the expense of our future well being Why don't we wonder what happened after they lived happily ever after and if in fact they really do What I hope to achieve by writing this book is to rattle the cage of young brides about to embark on this journey to talk about these issues with their future partners and to set the system up in a more equal way so no one is caught off guard if and when things crumble It will be difficult to achieve this task because no one wants to think about things falling apart before the marriage even begins and most certainly it sours the sweetness of the fantasy of the happily ever after as we know it What we don't realize is that there will be less bitterness and upset for the family especially for the children if we pursue this line of thinking Isn't that the real happily ever after
