News W. Lance Bennett, 2016-09-14 Can real news survive in an era of social media and spin An updated edition of the smart provocative introduction to media and American politics Paul Freedman author of Campaign Advertising and American Democracy For over thirty years News The Politics of Illusion has not simply reflected the political communication field it has played a major role in shaping it Today the familiar news organizations of the legacy press are operating in a fragmenting and expanding mediaverse as online competitors challenge the very definition of news itself We re inundated with opinions gossip clickbait false equivalencies targeting and other challenges while at the same time the rise of serious investigative organizations such as ProPublica presents yet a different challenge to legacy journalism Lance Bennett s thoroughly revised tenth edition offers an up to date guide to understanding how and why the media and news landscapes are being transformed It explains the mix of old and new and points to possible outcomes Where areas of change are clearly established key concepts from earlier editions have been revised There are new case studies updates on old favorites and insightful analyses of how novel kinds of information and engagement are affecting our politics As always News presents fresh evidence and arguments that invite new ways of thinking about the political information system and its place in democracy Bennett argues that the American political information system with news at its center is broken with serious consequences for democracy Bennett lays out his case and invites readers to make up their own minds Paul Freedman University of Virginia Talk Show Campaigns Michael Parkin, 2014-02-05 Over the past twenty years presidential candidates have developed an entertainment talk show strategy in which they routinely chat with the likes of Oprah Winfrey David Letterman and Jon Stewart In fact between 1992 and 2012 there have been more than 200 candidate interviews on daytime and late night talk shows with nearly every presidential candidate from long shot primary contender to major party nominee hitting the talk show circuit at some point during the campaign This book explores the development of the entertainment talk show strategy and assesses its impact on presidential campaigns The chapters mix detailed narrative with extensive empirical data on audiences content viewer reaction and press coverage to explain why candidates have embraced this strategy and the conditions under which these interviews are most likely to meet their expectations The book also explores how these interviews can enhance campaigns by connecting a critical segment of the voting population with candidates who provide useful political information in a casual setting Talk Show Campaigns shows that this is more than a gimmick it s a key part of how candidates communicate with voters which reveals a lot about how campaigns have changed over the past two decades

The Presidential Leadership Dilemma Julia R. Azari, Lara M. Brown, Zim G. Nwokora, 2013-01-29 Throughout their time in office American presidents are often forced to choose between leading the nation and leading their party In an earlier time when the major parties were less polarized this leadership dilemma while challenging was not nearly as vexing as it is today American presidents now find themselves with little room to maneuver compelled to serve the Constitution on the one hand and yet caught within bitter partisan disputes and large numbers of unaffiliated voters on the other The contributors to this volume investigate how recent presidents have navigated these increasingly rocky political waters Focusing on campaign strategy presidential rhetoric relations with Congress

domestic and foreign policy The Presidential Leadership Dilemma presents a wide ranging detailed and fascinating study of how contemporary presidents face the challenge at the heart of every presidency *Obama, the Media, and Framing the U.S. Exit from Iraq and Afghanistan* Erika G. King, 2016-05-23 Situating Obama's end of war discourse in the historical context of the 2001 terrorist attacks *Obama the Media and Framing the U S Exit from Iraq and Afghanistan* begins with a detailed comparison with the Bush war on terror security narrative before examining elements of continuity and change in post 9 11 elite rhetoric Erika King deftly employs two case studies of presidential and media framing the weeks surrounding the formal announcements of Obama's December 2009 surge then exit strategy from Afghanistan and the end of combat operations in Iraq in August 2010 to explore the role of mass media in presenting presidential narratives of war and finds evidence of an interpretive disconnect between the media and a president seeking to present a more nuanced approach to keeping America safe Eloquently scrutinizing Obama's discourse on the U S exit from two post 9 11 wars and contrasting the presidential endgame frame with the U S mainstream media's narratives of the wars meaning accomplishments and denouement provides a unique combination of qualitative content analysis and topical case studies and makes this volume an ideal resource for scholars and researchers grappling with the complicated and ever evolving nexus of war the president and the media

Candidate Character Traits in Presidential Elections David B. Holian, Charles L. Prysby, 2014-10-03 Voter perceptions of the personal traits of presidential candidates are widely regarded to be important influences on the vote Media pundits frequently explain the outcome of presidential elections in terms of the personal appeal of the candidates Despite the emphasis on presidential character traits in the media the scholarly investigation in this area is limited In this book David Holian and Charles Prysby set out to examine the effect that trait perceptions have on the vote how these perceptions are shaped by other attitudes and evaluations and what types of voters are most likely to cast a ballot on the basis of the character traits of the presidential candidates Using the American National Election Studies ANES surveys the authors find that traits do have a very substantial effect on the vote that different candidates have advantages on different traits and that the opinions expressed by media pundits about how the candidates are viewed by the voters are often simplistic and sometimes quite mistaken Character traits are important to voters but we need a better and more complete understanding of how and why these factors influence voters An essential read which provides a clear and original argument to all those interested in furthering their understanding of the importance of candidate character traits for the quality of American elections and democracy

The Discourse of Propaganda John Oddo, 2018-10-24 In the early 1990s false reports of Iraqi soldiers in Kuwait allowing premature infants to die by removing them from their incubators helped to justify the Persian Gulf War just as spurious reports of weapons of mass destruction later undergirded support for the Iraq War in 2003 In *The Discourse of Propaganda* John Oddo examines these and other such cases to show how successful wartime propaganda functions as a discursive process Oddo argues that propaganda is more than just misleading rhetoric generated by one person or group it is an elaborate process that relies on recontextualization ideally on a massive scale to keep it alive and effective In a series of case studies he analyzes both textual and visual rhetoric as well as the social and material conditions that allow them to circulate tracing how instances of propaganda are constructed performed and repeated in diverse contexts such as speeches news reports and popular everyday discourse By revealing the agents inter texts and cultural practices involved in propaganda campaigns *The Discourse of Propaganda* shines much needed light on the topic and challenges its readers to consider the complicated processes that allow propaganda to flourish This book will appeal not only to scholars of rhetoric and propaganda but also to those interested in unfolding the machinations motivating America's
