Tijdschrift voor filosofie ,1999 **Venice** Margaret Plant,2002-01-01 Margaret Plant presents a wide ranging cultural history of the city from the fall of the Republic in 1797 until 1997 showing how it has changed and adapted and how perceptions of it have shaped its reality **Tijdschrift voor filosofie** ,1997 *Nexus* ,1996 **Architectural Publications Index** ,1997 Supplement to the Official Journal of the European Communities ,1996-04-17 **Digital Signifiers in an Architecture of Information** Pablo Lorenzo-Eiroa,2023-05-31 This book proposes a new critical relationship between computation and architecture developing a history and theory of representation in architecture to understand and unleash potential means to open up creativity in the field Historically architecture has led to spatial representation Today computation has established new representational paradigms that can be compared to spatial representations such as the revolution of perspective in the Renaissance Architects now use software robotics and fabrication tools with very little understanding and participation in how these tools influence revolutionize and determine both architecture and its construction today Why does the discipline of architecture not have a higher degree of authorship in the conception and development of computational technologies that define spatial representation This book critically explores the relationship between history theory and cultural criticism Lorenzo Eiroa positions new understandings through parallel historical sections and theories of many revolutionary representational architecture canons displaced by conventional spatial projection He identifies the architects artists mathematicians and philosophers that were able to revolutionize their disciplines through the development of new technologies new systems of representation and new lenses to understand reality This book frames the discussion by addressing new means to understand and expand architecture authorship in relation to the survey information representation higher dimensional space Big Data and Artificial Intelligence in the pursuit of activating an architecture of information This will be important reading for upper level students and researchers of architecture and architectural theory especially those with a keen interest in computational design and robotic fabrication East Anglia and Its North Sea World in the Middle Ages David Bates,Robert Liddiard,2015 This collection of essays discusses East Anglia in the context of a medieval maritime framework and explores the extent to which there was a distinctive community bound together by the shared frontier of the North Sea during the Middle Ages It brings together the work of a range of international scholars and includes contributions from the disciplines of history archaeology art history and literary studies **Renaissance and Baroque Art** Leo Steinberg,2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg s perceptions evolved from long hard

looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg s art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Vel zquez Four chapters are devoted to some of Vel zquez s best known paintings ending with the famously enigmatic Las Meninas Renaissance and Baroque Art is the third volume in a series that presents Steinberg s writings selected and edited by his longtime associate Sheila Schwartz Australian Aboriginal Studies ,1996 **Meeting of the Minds** International Society for the Study of Medieval Philosophy,1998 Meeting of the Minds records the proceedings of the S I E P M conference held in Boston from June 14 16 1996 The conference participants centred their attention on the relationships between medieval and classical modern philosophy These relationships have been painted in dramatically different ways by those who have presented overviews of the two eras Hans Blumenberg in *The Legitimacy of the Modern Age* and his subsequent works discovers the seeds of modernity in the medieval authors themselves Leo Strauss and his followers see a radical difference between the classical world views of the ancients and medievals and the successive layers of modern thought These general portraits demand specifics and the strength of the conference whose results are contained in this volume was that it provided many specific examinations of concrete relations between the philosophical positions of celebrated medieval and modern thinkers Our hope is that this collection of papers will suggest the direction for further cooperative efforts on the interplay of the philosophical views represented by these two eras and that the issues commonly debated by the medieval and early modern thinkers represented in this volume will give renewed consideration to important philosophical points that have been ignored in more recent debates The volume contains contributions from E Jennifer Ashworth Waterloo Ontario Allan Back Kutztown Pennsylvania Jos Decorte Leuven Thomas Dewender Bochum Idit Dobbs Weinstein Nashville John P Doyle St Louis Jeremiah Hackett Columbia South Carolina Simo Knuuttila Helsinki James McEvoy Maynooth A Stephen McGrade Storrs Edward P Mahoney Durham North Carolina James D Maliszewski Toronto Emily Michael New York Woosuk Park Taejon Korea Horacio Santiago Otero Madrid Alison Simmons Cambridge Massachusetts Jean Luc Solere Paris Jose Mari Soto Rabanos Madrid and Eileen C Swe *International Who's who in Music and Musicians' Directory* David M.
