equality is unstable and non linear By combining quantitative data analysis with interviews from authors editors critics publishers and prize judges Alexandra Dane maps the circulation of prestige in Australian publishing addressing questions around gender identity literary reputation literary worth and the resilience of the status quo that have long plagued the field

This new collection of essays on Coetzee examines how his novels create and unsettle literary authority Its unique contribution is to show how Coetzee provokes us into reconsidering certain basic formal and existential questions such as the nature of literary realism the authority of the author and the constitution of the human self in a posthumanist setting by consciously revealing the literary theoretical seams of his work Strong Opinions makes the innovative claim that Coetzee s work is driven not by a sense of scepticism or nihilism but rather by a form of controlled exposure that defines the literary The essays in the volume variously draw attention to three of Coetzee's most recent and significant experiments in controlled exposure The first is the exposure of place Coetzee's decision to set his novels in his newly adopted country of Australia The second is the exposure of form Coetzee's direct almost essayistic address of literary philosophical topics within his novels And the third is the exposure of limits Coetzee's explicit deconstruction of the traditional limits of human life **Concepts and Techniques in International Literary Fiction** Ken Ireland, 2025-04-15 The omnipresence of narrative in our real life experience and in the media world makes it a vital and relevant factor for study This book presents an easily accessible guide to a series of key narrative topics with concise entries in a transparent format of compact paragraphs allowing quick reference and omitting footnotes and endnotes to aid fluency It uses throughout a wide range of illustrative examples from Western and non Western literature stressing the universal relevance and application of narrative concepts and techniques These examples are intended to stimulate interest in less familiar non mainstream but important texts and to highlight unsuspected features in more familiar texts Engaging with texts from Africa and Asia the Americas and Australasia as well as from Britain and Europe it will appeal to students of comparative literature to creative writers whose awareness of available techniques and devices can prompt fresh ideas and approaches and will introduce general readers can be introduced to new areas of literary experience Myths of Wilderness in Contemporary Narratives K.
