Nice Nacida Signo Under Taurus Spanish:

Fictionalizing heterodoxy Folke Gernert, 2019-06-17 The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature Literary Works like the *Libro buen amor* *La Lozana Andaluza* or the *Guzmán de Alfarache* are read against the backdrop of scientific developments of their times

Devotional Music in the Iberian World, 1450-1800 Tess Knighton, 2017-07-05 From the fifteenth century to the beginning of the nineteenth century devotional music played a fundamental role in the Iberian world Songs in the vernacular usually referred to by the generic name of villancico but including forms as varied as madrigals ensaladas tonos cantatas or even oratorios were regularly performed at many religious feasts in major churches royal and private chapels convents and in monasteries These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and as they were often composed anew for each celebration the surviving sources vastly outnumber those of Latin compositions they can be counted in tens of thousands The close relationship with secular genres both musical literary and performative turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia In many cases the villancico repertory represents the oldest surviving source of music produced in these regions thus affording it a primary role in the construction of national identities The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period providing the first broad based survey of this important genre
