Good Administration and the Council of Europe Ulrich Stelkens, Agnè Andrijauskaitė, 2020-09-11 Good Administration and the Council of Europe Law Principles and Effectiveness examines the existence and effectiveness of written and unwritten standards of good administration developed within the framework of the Council of Europe CoE and in the case law of the European Court of Human Rights These standards called pan European general principles of good administration cover the entire range of general organizational procedural and substantive legal institutions meant to ensure a democratically legitimized open and transparent administration respecting the rule of law They are about the limiting function of administrative law its function to protect individuals from arbitrary power to legitimize administrative action and to combat corruption This book analyses the sources and functions of the pan European general principles of good administration and seeks to uncover how deeply they are rooted in the domestic legal systems of the CoE Member States It comprises 28 country reports dedicated to an in depth exploration of the impact of these standards on the national legal systems of the Member States written by respective experts on these systems It argues that the pan European general principles of good administration lead to a certain harmonization of the legal orders of the Member States with regard to the limiting function of administrative law despite the many fundamental differences between their administrative and legal systems It comes to the further conclusion that the pan European general principles of good administration can be considered as a concretization of the founding values of the CoE and describes the administrative law obligations a Member State entered into when joining the CoE Cases, Materials and Text on Judicial Review of Administrative Action Chris Backes, Mariolina

Standing to Enforce European Union Law before National Courts Hilde K Ellingsen,2021-03-25 Access to court has long been recognised as an essential element of a Union based on the rule of law This book asks how can Member States ensure that their rules on standing guarantee that right The book answers this question by analysing the requirements of EU law from two angles first the effective protection of Union rights second the effectiveness of Union law per se With detailed case law examination the book formulates an autonomous Union law doctrine of standing based on the principle of effective judicial protection It then goes further setting out an effectiveness test of Member States enforcement mechanisms to ensure that EU law is rendered operative in practice This is a rigorous study on

Preliminary References to the Court of Justice of the European Union and Effective Judicial Protection Clelia Lacchi, 2020-09-09 The preliminary reference procedure under Article 267 TFEU is the keystone of the EU judicial system and its legal order Based on a dialogue between the Court of Justice and national courts it is strictly linked to the protection of the rights that individuals derive from EU law This book focuses on this procedure from the perspective of the right to effective judicial protection in light of Article 19 1 second subparagraph TEU and Article 47 of the Charter of Fundamental Rights of the EU It explores the level of protection that is ensured to individuals in order to access to the Court of Justice through preliminary references on the validity of EU acts and on the interpretation of EU law The book offers a threefold perspective on preliminary references through an analysis of the case law of the Court of Justice itself of the European Court of Human Rights in relation to Article 6 1 ECHR and of the constitutional courts of Austria Croatia Czech Republic Germany Slovakia Slovenia and Spain where the national courts refusals to refer can lead to the violation of national constitutional rights It further investigates the obligations for Member States and national courts in the framework of the preliminary reference procedure and how the right to effective judicial protection affects them The examination outlines the implications that could flow from the recognition of a right for individuals to have a question referred to the ECJ as part of the right to effective judicial protection under EU law in particular its nature and its enforcement Building upon the existing system of sanctions for the violations of the obligation to submit a preliminary question the book advances some proposals to rethink the current system of remedies

Judging Composite Decision-Making Filipe Brito Bastos, 2024-11-14 This book examines the European Court of Justice s principles relating to composite decision making Through rigorous case law analysis it shows how these rely on national and Union observance of rule of law requirements under what the book calls the Unitary Protection doctrine It explores the theoretical dimension of this doctrine illustrating how it represents a departure from the EU s foundational federalist approach to administrative law This fills a long standing gap in the literature and in our full understanding of composite decision making a key tenet of EU law EU constitutional and administrative law scholars will be fascinated by this compelling study

Direct Effect in EU Law Daniele Gallo, 2024-12-23 Direct Effect in EU Law is the first book in English to thoroughly examine this revolutionary legal principle tracing direct effect s evolution throughout the multiform process of European integration A founding doctrine of EU constitutional law and the driving force of the EU legal system direct effect enables individuals and companies to invoke their rights before domestic authorities and the Court of

Justice of the EU CJEU Yet while the doctrine of direct effect remains the backbone of the EU legal system it lacks clear legal framing by the CJEU Emphasizing the need for the CJEU to fully articulate and systematize direct effect as to its core components and consequences the book advocates for an innovative understanding of such principle that acknowledges its transformative impact on EU law It bridges theory and practice drawing upon the CJEU rulings dating from the 1950s up to 2024 The book reconstructs direct effect beyond the doctrine originating from Van Gend Loos and ultimately puts forward solutions for its principled comprehension and enforcement Network-Based Governance in EC Law Maartje De Visser, 2009-11-23 To strengthen the credibility of the EU and its policies the European Community is increasingly concerned to emphasise effective enforcement of EC law This book engages in the debate on the better application of European law by offering an integrated analysis of a new institutional arrangement one that relies on networks grouping the Commission and national administrative authorities Taking the traditional enforcement paradigms of decentralisation centralisation and agency based enforcement as starting points their benefits and downsides are described and critiqued and the author concludes that there is considerable room for improvement The book then undertakes a comprehensive analysis of the network model to determine its core characteristics and assess its effectiveness European competition law and electronic communications law are used as case studies because inter alia the networks there have developed an adequate level of sophistication The book also employs a bottom up approach considering how four key Member States France Germany the Netherlands and the United Kingdom have given effect to the relevant European rules At the core of the book is a critique of the wider normative attractiveness of the network model The discussion is kaleidoscopic engaging with a wide variety of notions including legitimacy judicial review subsidiarity institutional balance and efficiency The thrust of the book is that network based governance deserves careful consideration as the model that is able to mediate the competing concerns of coherence for Internal Market reasons and of diversity and respect for local autonomy This book is useful for EC competition law and communications law practitioners and those with a keen interest in institutional and administrative law
