Policies to Support the Development of Indonesia's Manufacturing Sector during 2020-2024, 2019-01-01 Indonesia's gross domestic product growth rate declined significantly after the Asian financial crisis AFC of 1997 1998 The country's potential and balance of payments growth rates are only about 5.5% and 3% respectively One important reason is that the country's industrialization pace declined after the AFC Today Indonesia is still exporting many unprocessed natural resources and simple manufactures not complex products with a low income elasticity

of demand This report analyzes how Indonesia's manufacturing sector could diversify and upgrade during 2020-2024 and beyond This is essential if Indonesia is to attain upper middle income status as soon as possible Policy makers and the private sector need to collaborate to identify the coordination failures that hamper the discovery of those products that Indonesia could successfully produce and export These must be complex products with a high income elasticity of demand The report proposes a number of policies to expedite this process

Competition Law in Developing Countries Thomas K. Cheng, 2020-05-27 This book brings together perspectives of development economics and law to tackle the relationship between competition law enforcement and economic development It addresses the question of whether and how competition law enforcement helps to promote economic growth and development This question is highly pertinent for developing countries largely because many developing countries have only adopted competition law in recent years about thirty jurisdictions had in place a competition law in the early 1980s and there are now more than 130 competition law regimes across the world of which many are developing countries The book proposes a customized approach to competition law enforcement for developing countries set against the background of the academic and policy debate concerning convergence of competition law The implicit premise of convergence is that there may exist one or a few correct approaches to competition law enforcement which in most cases emanate from developed jurisdictions that are applicable to all This book rejects this assumption and argues that developing countries ought to tailor competition law enforcement to their own economic and political circumstances In particular it suggests how competition law enforcement can better incorporate development concerns without causing undue dilution of its traditional focus on protecting consumer welfare It proposes ways in which approaches to competition law enforcement need to be adjusted to reflect the special economic characteristics of developing country economies and the more limited enforcement capacity of developing country competition authorities Finally it also addresses the long running debate concerning the desirability and viability of industrial policy for developing countries The author would like to acknowledge

the Research Grants Council of Hong Kong for its generous support The work in this book was fully supported by a grant from the Research Grants Council of Hong Kong Project No HKU 742412H United Nations Industrial Development Organization Stephen Browne,2012 The Politics of Trade and Industrial Policy in Africa Charles Chukwuma Soludo,Michael Osita Ogbu,Ha-Joon Chang,2004 This book maps the process and political economy of policy making in Africa It s focus on trade and industrial policy makes it unique and it will appeal to students and academics in economics political economy political science and African studies Detailed case studies help the reader to understand how the process and motivation behind policy decisions can vary from country to country depending on the form of government ethnicity and nationality and other social factors Globalisation, Comparative Advantage and the Changing Dynamics of Trade OECD,2011-10-20 This book collects OECD work that builds on recent contributions to the theory and empirics of comparative advantage putting particular emphasis on the role policy can play in shaping trade Annual World Bank Conference on Development Economics 2010, Global Justin Yifu Lin,Boris Pleskovic,2011-05-17 The Annual World Bank Conference on Development Economics ABCDE is one of the world s best known series of conferences for the presentation and discussion of new knowledge on development The conference provides a forum for the world s leading development thinkers to share new knowledge and ideas Lessons from East Asia and the Global Financial Crisis was the theme of the ABCDE held in Seoul Republic of Korea on June 22 24 2009 The conference was co organized by the Government of the Republic of Korea the Korea Development Institute KDI and the World Bank Innovation and Inclusion in Latin America Alejandro Foxley,Barbara Stallings,2016-06-06 This book argues that Latin America must confront two main challenges greater innovation to increase productivity and greater inclusion to incorporate more of the population into the benefits of economic growth These two tasks are interrelated and both require greater institutional capacity to facilitate both innovation and inclusion Most countries in Latin America are struggling to escape what economists label the middle income trap While much if not all of the region has emerged from low income status neither growth nor productivity has increased sufficiently to enable Latin America to narrow the gap separating it from the world s most developed economies Although income inequality has diminished across much of the region in recent years social vulnerability remains widespread and institutional weaknesses continue to plague efforts to achieve equitable development This volume identifies lessons that can be learned and adapted from experiences within the region and in East Asia where the middle income trap has largely been avoided This book is the result of a collaborative project undertaken by American University s Center for Latin American Latino Studies CLALS and the Corporation for Latin American Studies CIEPLAN in Chile with financial support from the Inter American Development Bank s Office of Strategic Planning and Development Effectiveness **Globalisation, Economic Development & the Role of the State** Ha-Joon Chang,2003-07 Ha Joon Chang evaluates the role of the state in economics and development In this collection of essays he reviews theories and practices of state intervention as they have developed

over two centuries of modern capitalism He develops an institutionalist approach to the role of the state in economic change and examines the issues involved in particular settings including industrial policy trade policy intellectual property rights regulation and strategies towards transnational corporations He mounts a sophisticated theoretical and historical case for the continuing essential and constructive roles which the state can and must play in economic development

Schumpeterian Analysis of Economic Catch-up Keun Lee, 2013-10-31 A fresh analysis of the secrets of Asian economic success and how other countries can escape the middle income trap Is Good Governance Good for Development? Jomo Kwame Sundaram, Anis Chowdhury, 2012-10-02 Governance Development and Growth critically evaluates conventional ideas about governance and development highlighting that while good governance is a worthy goal by itself it is not a prerequisite for economic growth or development as the donor community commonly believes Industrialization, Trade and Market Failures Mauricio Mesquita Moreira, 1995-01-12 This book challenges the established neoclassical view of industrial success in developing countries By re examining the role of government intervention in the industrialization of Brazil and South Korea it seeks to show that the key to industrial success does not lie in a simple combination of outward orientation and laissez faire but in the government's success in remedying crucial market failures in the product and factor markets
