consideration of nostalgia it shows how ideas once entertained but later discarded in the metropole can travel to the periphery and can be appropriated by those seeking to construct a meaningful world within the disenchantment of modernity Sumathi Ramaswamy ultimately reveals how loss itself has become a condition of modernity compelling us to rethink the politics of imagination and creativity in our day

Comics and Archaeology Zena Kamash, Katy Soar, Leen Van Broeck, 2022-10-06 This book adds to the scant academic literature investigating how comics transmit knowledge of the past and how this refraction of the past shapes our understanding of society and politics in sometimes damaging ways The volume comes at these questions from a specifically archaeological perspective foregrounding the representation and narrative use of material cultures It fulfils its objectives through three reception studies in the first part of the volume and three chapters by comic creators in the second part All six chapters aim to grapple with a set of central questions about the power inherent in drawn images of various kinds
