New York Review of the Telegraph and Telephone and Electrical Journal, 1913 *Citizens Plus* Alan C. Cairns, 2011-11-01 We are in the midst of a fundamental re-evaluation of the desired relation of Aboriginal and non-Aboriginal peoples to each other and of how the former are to be institutionally and constitutionally accommodated within Canada Words matter How we think about where we are and about the future goal of our relationship can confine us in an intellectual prison or liberate us from choices we will otherwise regret In *Citizens Plus* Alan Cairns unravels the historical record to clarify the current impasse in negotiations between Aboriginal peoples and the state He considers the assimilationist policy assumptions of the imperial era examines more recent government initiatives and analyzes the emergence of the nation to nation paradigm given massive support by the Royal Commission on Aboriginal Peoples We are battered by contending visions he argues a revised assimilation policy that finds its support in the Canadian Alliance Party is countered by the nation to nation vision which frames our future as coexisting

solitudes Citizens Plus stakes out a middle ground with its support for constitutional and institutional arrangements which will simultaneously recognize Aboriginal difference and reinforce a solidarity which binds us together in common citizenship Essential reading for those in political science history Native studies public administration and law Citizens Plus will also appeal to the general public interested in one of the most important and complex issues on our agenda Selected as a BC Book for Everybody *The Uses of Diversity* Jonathan Kahn, 2025-06-10 Race it is widely understood is a social category that has no genetic basis yet biological notions of race keep reemerging Attempts to redress disparities in biomedical research emphasize recruiting racially representative trial participants Forensic use of DNA evidence purports to pinpoint the race of a potential suspect Genetic ancestry tracing companies explain test results to customers using racial categories The makers of genomic databases seek to ensure racial inclusivity Jonathan Kahn argues that this predicament arises from a surprising source the concept of diversity Ranging across law politics science and medicine he examines the blurring of the distinction between social understandings of race and biological understandings of genetic variation Because diversity has become such a central concept across domains Kahn contends it enables slippage between these contradictory ideas entangling biological and social views of race Tracing the parallel histories of the Human Genome Project workforce diversification efforts U S Supreme Court cases over affirmative action the rise of precision medicine and the COVID 19 vaccine trials among others he shows why diversity is often deployed in ways that threaten to biologize race or undermine efforts to address racial injustice Combining incisive critique and interdisciplinary insight *The Uses of Diversity* offers bracing new perspective on one of today's most vexed concepts **The Radio Dealer**, 1922 *Saturday Review of Literature*, 1926 *Advertising & Selling*, 1919
