Page, Martin Gilens, 2020-04-02 Important and riveting The solution isn t to redistribute wealth from the have mores to the have lesses It s to redistribute political power to everyone Robert B Reich America faces daunting problems stagnant wages high health care costs neglected schools deteriorating public services How did we get here Through decades of dysfunctional government In Democracy in America veteran political observers Benjamin I Page and Martin Gilens marshal an unprecedented array of evidence to show that while other countries have responded to a rapidly changing economy by helping people who ve been left behind the United States has failed to do so Instead we have actually exacerbated inequality enriching corporations and the wealthy while leaving ordinary citizens to fend for themselves What s the solution More democracy More opportunities

for citizens to shape what their government does To repair our democracy Page and Gilens argue we must change the way we choose candidates and conduct our elections reform our governing institutions and curb the power of money in politics By doing so we can reduce polarization and gridlock address pressing challenges and enact policies that truly reflect the interests of average Americans Updated with new information this book lays out a set of proposals that would boost citizen participation curb the power of money and democratize the House and Senate Brilliant indispensable and highly accessible New York Journal of Books Critical Political Economy of the Media Jonathan Hardy,2014-06-20 How the media are organised and funded is central to understanding their role in society Critical Political Economy of the Media provides a clear comprehensive and insightful introduction to the political economic analysis of contemporary media Jonathan Hardy undertakes a critical survey of political economy scholarship encompassing worldwide literature issues and debates and relationships with other academic approaches He assesses different ways of making sense of media convergence and digitalisation media power and influence and transformations across communication markets Many of the problems of the media that prompted critical political economy research remain salient he argues but the approach must continue to adapt to new conditions and challenges Hardy advances the case for a revitalised critical media studies for the 21st century Topics covered include media ownership and financing news and entertainment convergence and the Internet media globalisation advertising and media alternative media media policy and regulation Introducing key concepts and research this book explains how political economy can assist students researchers and citizens to investigate and address vital questions about the media today In It to Win Lori Cox Han,2015-05-21 When will the United States elect its first woman president Many political observers believed that Hillary Clinton would win the White House in 2008 and many still believe she is a strong contender for 2016 Yet while many believe that electing the first woman president is not a question of if but who and when media speculation on the topic has yet to move it from an interesting talking point to political reality The question remains Just how close are we to breaking this final political glass ceiling By merging the two literatures of women and politics especially women as candidates and presidential campaigns and elections a winning strategy for women candidates can emerge by analyzing what political science research tells us from past campaigns and what we can expect in the future

The Presidential Leadership Dilemma Julia R. Azari, Lara M. Brown, Zim G. Nwokora, 2013-01-29 Throughout their time in office American presidents are often forced to choose between leading the nation and leading their party In an earlier time when the major parties were less polarized this leadership dilemma while challenging was not nearly as vexing as it is today American presidents now find themselves with little room to maneuver compelled to serve the Constitution on the one hand and yet caught within bitter partisan disputes and large numbers of unaffiliated voters on the other The contributors to this volume investigate how recent presidents have navigated these increasingly rocky political waters Focusing on campaign strategy presidential rhetoric relations with Congress domestic and foreign policy The Presidential Leadership Dilemma presents a wide ranging detailed and fascinating study of how contemporary presidents face the challenge at the heart of every presidency

Habermas, Foucault and the Political-Legal Discussions in China Fan Yang, 2022-03-10 This book revisits the discourse theories of Habermas and Foucault in a Chinese context After arguing that Habermas's Discourse Theory of Law and Democracy is too normative and idealistic it presents Foucault's Discourse Theory of Power Relations to illustrate the tensions between different Western discourse theories The book then draws on the normative concept of Confucian Rationality from traditional Chinese cultural sources in order to investigate how adaptable these two discourse theories are to the Chinese society and to balance the tension between them Presenting these three dimensions of discourse theory as well as the relations between them it also uses empirical descriptions of certain facts of political legal discussion both in traditional China and in the country's new media age to explain supplement and question this theoretic framework The book asserts that because of the diverse modes of thinking in specific cultures there might be different normative paradigms of discourse and different political legal discussion modes across corresponding cultural contexts Normative discourse theories provide guidance for the practices of deliberative democracy and legal discussions which can in turn verify supplement improve and challenge the normative discourse theories In addition to demonstrating the multiple dimensions of discourse theories this research also promotes an approach to the Discourse Theory of Law and Democracy

that combines elements of both Chinese and modern society Reconstructing Reality in the Courtroom W. Lance Bennett, Martha S. Feldman, 2014-03-13 *Reconstructing Reality in the Courtroom* explains what makes stories believable and how ordinary people connect complex legal arguments and evidence presented in trials to assess guilt and innocence The explanation takes the core elements of narrative the who what where when how why and shows how average people who hear hundreds of stories every day use the connections between these elements to assess credibility A series of simple experiments outside the courtroom provides evidence for the explanation showing that there is little relationship between the actual truth of a story and the degree to which the story is believed to be true by an audience of random listeners not familiar with the teller So how do jurors make a particular legal judgment Based on courtroom observation trial transcripts and credibility experiments Bennett and Feldman create a method of diagramming stories that shows exactly what makes some stories more believable than others Prosecutors and defense attorneys can use this method of analyzing stories to weigh the strategies and tactics available to them scholars can use it to assess the process of legal judgment Now in its Second Edition this much cited resource adds a new preface by the authors as well as new forewords from divergent perspectives From his experience in law practice William S Bailey notes that the book offers timeless insights as its authors adapt a broad structural framework of storytelling to the criminal trial context making it come alive in the dynamic real world courtroom environment Law and society scholar Anna Maria Marshall writes that the book s emphasis on storytelling will resonate with scholars studying legal consciousness where narrative plays an important theoretical and methodological role This new edition will be a welcome addition to the Law and Society community *Reconstructing Reality in the Courtroom* is as timely as it was when this classic was first published Here Bennett and Feldman provide great insight into the importance of storytelling as a basis of justice in American criminal trials It deserves very wide readership Elizabeth F Loftus Distinguished Professor University of California Irvine Author *Eyewitness Testimony* 1996 This classic law and society study on the power of legal stories is a rich and compelling empirical analysis of the dynamics of story construction in trials The book remains an essential resource for law students litigators academics and any others who wish to understand the interpretive significance of the stories told in the courtroom Jeannine Bell Professor of Law and Neizer Faculty Fellow Indiana University Maurer School of Law Bloomington Author *Hate Thy Neighbor* 2013 Part of the Classics of Law Society Series from Quid Pro Books
