the hidden injuries of class Lerner shows that much of the suffering in our society including most of its addictions and the growing embrace of right wing nationalism and reactionary versions of fundamentalism is driven by frustrated needs for community love respect and connection to a higher purpose in life Yet these needs are too often missing from liberal discourse No matter that progressive programs are smartly constructed they cannot be achieved unless they speak to the heart and address the pain so many people experience Liberals and progressives need coherent alternatives to capitalism but previous visions of socialism do not address the yearning for anything beyond material benefits Inspired by Herbert Marcuse Erich Fromm and Carol Gilligan Revolutionary Love offers a strategy to create the Caring Society Lerner details how a civilization infused with love could put an end to global poverty homelessness and hunger while democratizing the economy shifting to a twenty eight hour work week and saving the life support system of Earth He asks that we develop the courage to stop listening to those who tell us that fundamental social transformation is unrealistic *Human Factors in Aviation and Aerospace* Joseph Keebler,Elizabeth H.
