Ngos States And Donors Too Close For Comfort International Political Economy:

NGOs, States and Donors Michael Edwards, David Hulme, 2013-10-01 Since the book was first published NGOs have continued to rise in prominence but our concerns have been little redressed The new Preface and Afterword to this IPE Classic provide an up to date review of the debates on NGOs and the development sector that consolidate on this argument and look briefly at some of the reactions it has received **The Elusive Promise of NGOs in Africa S.**

Dicklitch, 1998-07-13 Dicklitch challenges the dominant discourse of neo liberalism which places NGOs and civil society at the forefront of democratization and development in Africa Based on nine months of field research in Uganda the study draws on evidence from the successfully liberalizing country and shows how NGO potential for democratization and development has been subverted by state directives structural and historical conditions as well as the internal limitations of NGOs The Political Economy of NGOs Jude L. Fernando, 2011-07-08 This book explores the paradoxical relationship between NGOs and capitalism showing that supposedly progressive organisations often promote essentially the same policies and ideas as existing governments It examines how a diverse group of NGOs have shaped state formation in Bangladesh and Sri Lanka It argues that rather than influencing state formation for the better NGOs have been integrated into the capitalist system and their language adopted to give traditional exploitative social relations a transformative appearance This enlightening study will give pause to those who see NGOs as drivers of true social change and will encourage students of development studies to make a deeper analysis of state formation Routledge Encyclopedia of International Political Economy R. J. Barry Jones, 2002-09-11 This three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy The Rise of Global Health Joshua K. Leon, 2015-02-10 Since the year 2000 unprecedented resources have been committed to the complex challenge of developing global public health solutions by national governments multilateral organizations and civil society groups This vast global movement is one of the most remarkable political phenomena of twenty first century international relations but is it working In *The Rise of Global Health* Joshua K Leon argues against the conventional wisdom which argues that collective action on development issues including controversial increases in foreign aid is too inherently inefficient to succeed Leon shows that public action on a global level can successfully pursue health equality Often at the behest of grassroots activists these disparate groups of actors are cooperating more than ever

with the aim of improving our human potential through better health Though operating at cross purposes with unequal trade agreements and other factors within the global economy harming the Global South we learn something surprising about global health governance it is evolving in ways more efficient than we think

Sanctions as Economic Statecraft S. Chan,A. Drury,2000-07-14 This book approaches economic sanctions as a form of statecraft in order to better study the oft used but not well understood policy The chapters study a variety of historical and current cases involving the use of economic threats and promises Their authors come from both academic and policy making fields as well as different disciplinary backgrounds political science and economics They apply different research approaches case studies statistical analysis formal economics to increase our understanding of the sanction puzzle

Structural Flaws in the Middle East Process J. W. Wright Jr,2002-02-07 Negotiations between Israel and the Arab states have continued in one form or another for over a decade through three Israeli administrations the death of a King of Jordan and through countless riots and incidences of protest by Palestinians and Jews alike The agreements that have been reached and some situations established by defacto rule and force majeure have created possibly irreversible economic and political structures This collection presents a debate among eminent scholars and public officials over the power these structures engender in the region

Democracy without Borders Jean Grugel,2002-01-04 This book carves out a new area of democratisation studies by analysing the transnational dimension and the role of non state actors across three different geographical regions Chapters utilise empirical data from Europe Africa and Latin America

Transnational Activism in Asia Nicola Piper,Anders Uhlin,2004-06 This book offers new perspectives on transnational activism with a focus on Asia The chapters and case studies examine macro and micro aspects of power and how cross border activities of civil society groups relate to problems of democracy

Corruption as an Empty Signifier Lucy Koechlin,2013-05-23 Corruption as an Empty Signifier critically explores the ways in which corruption in Africa has been equated with African politics and political order and offers a novel approach to understanding corruption as a potentially emancipatory discourse of political transformation

Authoritarian Capitalism in the Age of Globalization Peter Bloom,2023-02-14 Authoritarian capitalism is rapidly evolving intensifying and spreading across the globe This updated second edition book demonstrates that the recent resurgence of fascism and repressive democracies are connected to and symptomatic of the fundamental authoritarianism of capitalism

Communication, Commerce and Power Edward A. Comor,2016-01-06 In this history of US based direct broadcast satellite developments the United States and other nation states are shown to be the ultimate arbiters of their ongoing histories In making this now unfashionable argument Edward A Comor directly challenges recent academic work that tends to privilege global processes over national and argues that the contemporary world order is being shaped primarily by transnational rather than nation state based forces In testing this orientation with empirical research on US foreign communication policy since 1960 Communication Commerce and Power compels academics and policy makers to rethink commonplace assumptions about the characteristics

and potentials of the contemporary and future international political economy Challenging Global Finance Elizabeth Friesen, 2012-01-25 Friesen demonstrates how transnational CSOs and NGOs can influence the context in which international political decisions are made She shows how by reframing the issues the transnational campaign for the cancellation of third world debt altered the dominant discourse shifted the agenda and thereby shaped political outcomes *Interdependence, Disequilibrium and Growth* John Loxley, 2016-07-27 Loxley examines the impact of globalization on different countries and regions Changing patterns of trade industrialization debt aid and other financial flows are analysed as is the debate about structural adjustment programs Four recent developments likely to have major implications for North South relations are identified efforts to reduce the US deficit the emergence of regional trading blocs the implementation of the Uruguay Round of GATT and the collapse of the Soviet Union Finally the likely impact on North South relations of pursuing alternative paradigms to economic growth is examined *Industrial Crisis and the Open Economy* G. Underhill, 2016-07-27 Written in the context of contemporary theoretical debate in international political economy this book overturns a number of myths about the political economy of trade in one of the oldest areas of industry In this way the author systematically links the changing characteristics of the trade regime to structural change and adjustment in global industry He argues that state policy processes international regimes and the industrial adjustment strategies of firms must be conceptualised as integrated processes of governance cutting across levels of analysis in the global political economy **Politicising Democracy** J. Harriss, K. Stokke, Olle Törnquist, 2004-11-11 There is a major contradiction in contemporary politics there has been a wave of democratization that has swept across much of the world while at the same time globalization appears to have reduced the social forces that have built democracy historically This book by an international group of authors analyzes the ways in which local politics in developing countries often neglected in work on democratization render democratic experiments more or less successful in realizing substantial democracy *Transnational Mobilization and Domestic Regime Change* H. Schmitz, 2006-03-13 Africa represents the next frontier of the transnational politics of democratization Recent efforts to promote human rights and democracy have yielded a mixed record of success A comparison of regime change in Kenya and Uganda reveals how principled interventions have unintentional adverse effects on the democratic reform process *Global Civil Society and Its Limits* G. Laxer, S. Halperin, 2003-04-30 This volume critically examines the promise of a global civil society Exploring issues in cases of diverse social justice movements the contributors show that a global civil society is still far from emerging and its promotion may even harm the realization of grassroots democracy The Internet is an exciting new means for activists to communicate internationally and citizens movements increasingly co ordinate campaigns through transnational advocacy networks but most effective civic action still takes place at national and local levels **The Tropical Timber Trade Regime** F. Gale, 1998-09-14 Gale explains why international negotiations have not produced a sustainable solution to tropical rainforest degradation Using an innovative critical approach to international regimes the author analyzes

the structure and operation of the International Tropical Timber Organization ITTO He shows how the timber industry and producing and consuming country governments created a blocking alliance that favoured developmentalist interests and ideas The ITTO bolstered this alliance by permitting environmentalists merely to voice but not to negotiate their concerns

Democratization in the Third World Lars Rudebeck, Olle Törnquist, Virgilio Rojas, 2016-07-27 Democratization in the Third World addresses many current issues of development democratization and civil society in countries in Asia Africa and Latin America against the background of theoretical introductions and comparisons with the Swedish historical experience of democratisations The authors from seven different continents examine civil society and its relation to the state throughout the world and assess prospects for sustainable democratization
