Dying in America Institute of Medicine, Committee on Approaching Death: Addressing Key End-of-Life Issues, 2015-03-19 For patients and their loved ones no care decisions are more profound than those made near the end of life Unfortunately the experience of dying in the United States is often characterized by fragmented care inadequate treatment of distressing symptoms frequent transitions among care settings and enormous care responsibilities for families According to this report the current health care system of rendering more intensive services than are necessary and desired by patients and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life Death is not a strictly medical event Ideally health care for those nearing the end of life harmonizes with social psychological and spiritual support All people with advanced illnesses who may be approaching the end of life are entitled to access to high quality compassionate evidence based care consistent with their wishes Dying in America evaluates strategies to integrate care into a person and family centered team based framework and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families The findings and recommendations of this report will address the needs of patients and their families and assist policy makers clinicians and their educational and credentialing bodies leaders of health care delivery and financing organizations researchers public and private funders religious and community leaders advocates of better care journalists and the public to provide the best care possible for people nearing the end of life *Handbook of Social Work in Health and Aging* Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with

issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today
