Nice Book Inclusion Without Representation Latin America:

Inclusion without Representation in Latin America Mala Htun, 2016-01-14 This book analyzes why and how fifteen Latin American countries modified their political institutions to promote the inclusion of women Afrodescendants and indigenous peoples Through analysis and comparison of experiences in Argentina Bolivia Brazil Chile Colombia and Mexico the book accounts for the origins of quotas and reserved seats in international norms and civic mobilization It shows how the configuration of political institutions and the structure of excluded groups set the terms and processes of inclusion Arguing that the new mechanisms have delivered inclusion but not representation the book demonstrates that quotas and reserved seats increased the presence in power of excluded groups but did not create constituencies or generate civic movements able to authorize or hold accountable their representatives *Inclusion without Representation in Latin America* Mala Htun, 2016-01-14 This book analyzes how Latin American countries modified their institutions to promote the inclusion of women Afrodescendants and indigenous peoples *Gender and Representation in Latin America* Leslie A. Schwindt-Bayer, 2018 In the past thirty years women s representation and gender equality has developed unevenly in Latin America Some countries have experienced large increases in gender equality in political offices whereas others have not and even within countries some political arenas have become more gender equal whereas others continue to exude intense gender inequality These patterns are inconsistent with explanations of social and cultural improvements in gender equality leading to improved gender equality in political office Gender and Representation in Latin America argues instead that gender inequality in political representation in Latin America is rooted in institutions and the democratic challenges and political crises facing Latin American countries and that these challenges matter for the number of women and men elected to office what they do once there how much power they gain access to and how their presence and actions influence democracy and society more broadly The book draws upon the expertise of top scholars of women gender and political institutions in Latin America to analyze the institutional and contextual causes and consequences of women s representation in Latin America It does this in part 1 with chapters that analyze gender and political representation regionwide in each of five different arenas of representation the presidency cabinets national legislatures political parties and subnational governments In part 2 it provides chapters that analyze gender and representation in each of seven different countries Argentina Chile Costa Rica Uruguay Mexico Brazil and Colombia The authors bring novel insights and impressive new data to their analyses helping to make this one of the most comprehensive books on gender and political representation in Latin America today *Routledge Handbook of Afro-Latin American Studies* Bernd Reiter, John Antón Sánchez, 2022-11-08 This Handbook provides a comprehensive roadmap to the burgeoning area of Afro Latin American Studies Afro Latins as a civilization developed during the period of slavery obtaining cultural contributions from Indigenous and European worlds while today they are enriched by new social configurations derived from contemporary migrations from Africa The essays

collected in this volume speak to scientific production that has been promoted in the region from the humanities and social sciences with the aim of understanding the phenomenon of the African diaspora as a specific civilizing element With contributions from world leading figures in their fields overseen by an eminent international editorial board this Handbook features original authoritative articles organized in four coherent parts Disciplinary Studies Problem Focused Fields Regional and Country Approaches Pioneers of Afro Latin American Studies The Routledge Handbook of Afro Latin American Studies will not only serve as the major reference text in the area of Afro Latin American Studies but will also provide the agenda for future new research

Sharrow, 2023-07-20 Fifty years after the passage of Title IX the institutions that govern college sports undermine initiatives for advancing gender equality Sex based segregation androcentric organizational cultures and overbearing market incentives prevent policy change These institutional barriers can sideline any marginalized group from achieving equality **Women, Power, and Property** Rachel E Brulé, 2020-10-22 Quotas for women in government have swept the globe Yet we know little about their capacity to upend entrenched social political and economic hierarchies Women Power and Property explores this question within the context of India the world's largest democracy Brul employs a research design that maximizes causal inference alongside extensive field research to explain the relationship between political representation backlash and economic empowerment Her findings show that women in government gatekeepers catalyze access to fundamental economic rights to property Women in politics have the power to support constituent rights at critical junctures such as marriage negotiations when they can strike integrative solutions to intrahousehold bargaining Yet there is a paradox quotas are essential for enforcement of rights but they generate backlash against women who gain rights without bargaining leverage In this groundbreaking study Brul shows how well designed quotas can operate as a crucial tool to foster equality and benefit the women they are meant to empower

perpetuate gender rigid expectations of people This text is a valuable study for scholars of Japanese politics and society and for readers with an interest in the broader issue of the representation of women in politics

Has Democracy Failed Women? Drude Dahlerup, 2017-11-10 Why are women still under represented in politics Can we speak of democracy when women are not fully included in political decision making Some argue that we are on the right track to full gender equality in politics while others talk about women hitting the glass ceiling or being included in institutions with shrinking power not least as a result

of neo liberalism In this powerful essay internationally renowned scholar of gender and politics Drude Dahlerup explains how democracy has failed women and what can be done to tackle it Political institutions including political parties she argues are the real gatekeepers to elected positions all over the world but they need to be much more inclusive By reforming these institutions and carefully implementing gender quotas we can move towards improved gender equality and greater democratization
