in Brains, Minds and Machines Achim Schilling, Patrick Krauss, Andreas K. Maier, Roland Schaette, William Sedley, Richard Carl Gerum, 2023-10-30 **Neurodevelopmental Disabilities** Dilip R. Patel, Donald E. Greydanus, Hatim A. Omar, Joav Merrick, 2011-04-07 Increasingly more and more children with developmental disabilities survive into adulthood Pediatricians and other clinicians are called upon to care for an increasing number of children with developmental disabilities in their practice and thus there is a need for a practical guide specifically written for paediatricians and primary care clinicians that addresses major concepts of neurodevelopmental pediatrics In the United States the specialty training leading to a conjoint board certification by the American Board of Pediatrics and American Board of Psychiatry and Neurology requires a total of 6 years of training 2 years of pediatrics 1 year of neurology 18 months of child neurology 18 months of neurodevelopmental disabilities As of December 2006 in the US there were 241 pediatricians and 55 child neurologists certified in the subspecialty of Neurodevelopmental Disabilities Thus most of the children with developmental disabilities are seen by pediatricians and therefore it is important for these pediatricians to be well informed of common issues in the field The 60 000 or so pediatricians in the United States and hundreds more in other countries are the main target audience for a practical book on neurodevelopmental pediatrics
