Venkatesh Upadrista,2021-05-26 A staggering 70% of digital transformations have failed as per McKinsey The key reason why enterprises are failing in their digital transformation journey is because there is no standard framework existing in the industry that enterprises can use to transform themselves to digital There are several books that speak about technologies such as Cloud Artificial Intelligence and Data Analytics in silos but none of these provides a holistic view on how enterprises can embark on a digital transformation journey and be successful using a combination of these technologies FORMULA 4 0 is a methodology that provides clear guidance for enterprises aspiring to transform their traditional operating model to digital Enterprises can use this framework as a readymade guide and plan their digital transformation journey This book is intended for all chief executives software managers and leaders who intend to successfully lead this digital transformation journey An enterprise can achieve success in digital transformation only of it can create an IT Platform that will enable them to adopt

any new technology seamlessly into existing IT estate deliver new products and services to the market in shorter durations make business decisions with IT as an enabler and utilize automation in all its major business and IT processes Achieving these goals is what defines a digital enterprise Formula 4 0 is a methodology for enterprises to achieve these goals and become digital Essentially there is no existing framework in the market that provides a step by step guide to enterprises on how to embark on their successful digital transformation journey This book enables such transformations Overall the Formula 4 0 is an enterprise digital transformation framework that enables organizations to become truly digital China's Science and Technology Sector and the Forces of Globalisation Elspeth Thomson,Jon Sigurdson,2008 China s booming economy has drawn both admiration and fear from the rest of the world With its ability to churn out high quality goods at low prices China has become known as the factory of the world To better understand China s development and modernisation since the 1978 reforms it is necessary to analyse its policies on importing technologies and developing indigenous ones The articles in this volume paint a comprehensive picture of the attempts by the Chinese government to adopt and foster science and technology the successes of the policies and the continuing challenges **Proceedings of the 2022 2nd International Conference on Education, Information Management and Service Science (EIMSS 2022)** Zehui Zhan,Ding Zhou,Honglin Wu,2022-12-28 This is an open access book 2022 2nd International Conference on Education Information Management and Service Science EIMSS 2022 was held on July 22 24 2022 in Changsha China EIMSS 2022 is to bring together innovative academics and industrial experts in the field of Education Information Management and Service Science to a common forum The primary goal of the conference is to promote research and developmental activities in Education Information Management and Service Science and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in Education Information Management and Service Science and related areas *National Service Data* National Automotive Service, Inc.
