## The Cold War Begins, 1945–1960

### **STARTUP QUESTION** - Step into the Place:

*Read and discuss the primary sources on pages 394-395*

How do the United States and the Soviet Union each seem to be interpreting the intentions of the other nation?

US perspective -> The driving force behind the imperialism camp is the USA. The cardinal purpose of the imperialism camp is to strengthen imperialism, to hatch a new imperialism war, to combat socialism and democracy, and to support the reactionary and antidemocratic profascist regimes.

USSR perspective -> The USSR still believes in antagonistic capitalist encirclement with which in the long run there can be no permanent peaceful existence.

## Lesson 1 The Origins of the Cold War

### **I. Building a New World**

A. In July of 1944, President Roosevelt invited world leaders to Bretton Woods, NH, with the purpose of organizing the world's postwar economic systems. At the conference leaders created two key institutions: the **World Bank**, which lends money to weaker nations, and the **International Monetary Fund (IMF)** which helps nations with trade deficits (import more than they export).

B. Also in 1944 delegates from 39 nations met in the city of **Washington DC** to discuss a new organization called the **United Nations (UN)**. This organization would have a **General Assembly** of member nations and also a **Security Council** of eleven members.

C. When the Soviet Union liberated **Poland** in 1944, they encouraged the establishment of a **Communist Government** government. The pre-war government had fled to **Britain**. Churchill and Roosevelt agreed to **recognize the government** if members of the pre-war government were included and that **two elections** be held as soon as possible.

D. The leaders issued the Declaration of Liberated Europe that asserted all nations have the right to **choose government**.

E. The Allies divided Germany into **four** zones. Each one would be controlled by one Allied nation. They also insisted Germany pay **heavy reparations** for the war.

F. Tension between the United States and the Soviet Union led to the **Cold War**. The Soviets believed in a **communist** economic system. U.S. leaders believed that an **enterprise** system was the key to peace.

### **II. Truman Takes Control**

A. In July 1945 Truman and Stalin met at the **Potsdam Conference**. Truman believed **an industry** was crucial for Germany, while the Soviet Union believed it needed **reparations** from Germany.

B. The Soviets refused to uphold the Declaration of Liberated Europe (DLE). The countries of Eastern Europe would set up **Communist** governments and came to be known as **satellite nations**. Churchill later described it as an **iron curtain** falling across Eastern Europe.

**After the End of History** Samuel Cohen, 2009-10-01 In this bold book Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York. With refreshing clarity he examines six 1990s novels and two post-9/11 novels that explore the impact of the end of the Cold War: Pynchon's *Mason Dixon*, Roth's *American Pastoral*, Morrison's *Paradise*, O'Brien's *In the Lake of the Woods*, Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Lethem's *Fortress of Solitude*, and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political end of history claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.

**The Essential Guide to Writing History Essays** Katherine Pickering Antonova, 2020 *The Essential Guide to Writing History Essays* is a step-by-step guide to the typical assignments of any undergraduate or master's level history program in North America. Effective writing is a process of discovery achieved through the continual act of making choices: what to include or exclude, how to order elements, and which style to choose, each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation, as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple short essays to completing a full research thesis; it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice.
