Orphans of Middle Mars: Part 1 CJ East, 2015-03-27 In a tired world of 2035 the governments and institutions begin to fail as the largest public relations effort in Earth history captures the hope of mankind Four nations and Google focus their attention on an International Mars Colony igniting the imagination of the jaded youth with the inclusion of six teenagers on a three year assignment Kinch McGrath washed out of the final stages of the Team USA selection and was immediately recruited by Google Having been raised in the Warrior Guild the son of a war hero and the grandson of one of the Warrior Guild founders his tactical and strategic training was the asset Google needed to round out their scientific team A dire situation on Earth causes tensions to rise as Kinch makes contact with what he believes to be an alien life form This revelation leads him down an incredible path filled with danger adventure and understanding his true purpose Join Kinch as he fights to survive and to protect the Orphans of Mars

Abraham Ibn Ezra Latinus on Nativities, 2019-03-27 Abraham Ibn Ezra was reborn in the Latin West in the last decades of the thirteenth century thanks to a plethora of authored and anonymous Latin translations of his astrological writings The present volume offers the first critical edition accompanied by an English translation a commentary and an introductory study of Liber nativitatum Book of Nativities and Liber Abraham Iudei de nativitatibus Book on Nativities by Abraham the Jew two astrological treatises in Latin that were written by Abraham Ibn Ezra or attributed to him and whose Hebrew source text or archetype has not survived The first is undoubtedly an anonymous Latin translation of the second version of Ibn Ezra's Sefer ha moladot Book of Nativities whose Hebrew source text is otherwise lost The second is the most mysterious specimen among the Latin works attributed to Ibn Ezra that have no extant Hebrew counterpart The present volume shows not only that the Liber Abraham Iudei de nativitatibus underwent a significant metamorphosis over time and was transmitted in four significantly different versions but also that its date of composition is not that previously accepted by modern scholarship These volumes represent a major achievement in the history of medieval astrology and it is no wonder that they have already become classics often referred to by specialists in the field including by this reviewer David Juste Ptolemaeus Arabus et Latinus Munich Journal for the History of Astronomy 51 I
