Animation Behind the Iron Curtain Eleanor Cowen, 2020-09-22 *Animation Behind the Iron Curtain* is a journey of discovery into the world of Soviet era animation from Eastern Bloc countries From Jerzy Kucia's brutally exquisite *Reflections in Poland* to the sci fi adventure of *Ott in Space* by Estonian puppet master Elbert Tuganov to the endearing *Gopo's little man* by Ion Popescu *Gopo* in Romania this excursion into Soviet era animation brings to light magnificent art ruminations on the human condition and celebrations of innocence and joy As art reveals the spirit of the times animation art of Eastern Europe during the Cold War funded by the Soviet states allowed artists to create works illuminating to their experiences hopes and fears The political ideology of the time ironically supported these artists while simultaneously suppressing more direct critiques of Soviet life Politics shaped the world of these artists who then fashioned their realities into amazing works of animation Their art is integral to the circumstances in which they lived which is why this book combines the unlikely combination of world politics and animated cartoons The phenomenal animated films shared in this book offer a glimpse into the culture and hearts of Soviet citizens who grew up with characters as familiar and beloved to them as Mickey Mouse and Bugs Bunny are to Americans This book lays out the basic political dynamics of the Cold War and how those political tensions affected the animation industry in both the US and in the Eastern Bloc And for animation novices and enthusiasts alike *Animation Behind the Iron Curtain* also offers breakout sections to explain many of the techniques and aesthetic considerations that go into this fascinating art form This book is a must read for anyone interested in the Cold War era and really cool animated films

The American Deep State Peter Dale Scott, 2017-05-02 Now in a new edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state that influences and often opposes official U S policies Prominent political analyst Peter Dale Scott begins by tracing America's increasing militarization restrictions on constitutional rights and income disparity since World War II With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy This has resulted in both secretive new institutions and a slow but radical change in the American state itself He argues that central to this historic reversal were seismic national

events ranging from the assassination of President Kennedy to 9 11 Scott marshals compelling evidence that the deep state is now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy

Covert Capital Andrew Friedman, 2013-08-02 The capital of the U S Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U S imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U S imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad

by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American suburbs and U S foreign policy Covert Capital will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales American Crossroads 37

America's Plans for World Hegemony Calistrat M. Atudorei, The book acidly tells us a story of the rise and decline of one of the greatest empires ever and surely the most prominent empire as the existing one in our life time The most prominent and as the statistical abstracts and documents of the US Congress reveal the most addicted of all empires to an old and continuous military interventionism in every corner of the world At the beginning of his book the author lists and examines closely the new and century old principles and doctrines incorporated into American foreign policy as a combination between diplomacy and war and almost always the latter being the winner i e American exceptionality Monroe Doctrine Teddy Roosevelt s Speak Soft and Carry a Big Stick diplomacy Show the Flag strategic idiom Gunboat Diplomacy Truman and Reagan doctrines the Domino Theory the neoconservative Project for a New American Century Bush Jr Doctrine of preventive wars etc Then quoting highly qualified American sources the author shocks the reader as he concludes that the US is no longer a truly democratic state but one led by oligarchy an Elite that no longer represent the will of the population He also emphasizes with logical arguments the existence of the US Military industrial complex the Deep State the Financial Cartel etc He unveils an America in the twilight zone of secretive planning and leadership strictly controlled global institutions wars and neocolonialism in the Middle East Latin America and East Europe and of 75 years of Soviet Union Russia incisive and limitless budgeted strategies of confrontation Basically in his book Mr Atudorei exposes a perpetual chain of historical misdeeds having America as its originator America addicted to militarism an American militarism addicted to aggression war and imperial supremacy 240 years long and continuous American wars addicted to millions of victims finally millions of victims forgotten by a political propaganda machine addicted to falsehood deception and lies and calling invasions coup d tats and aerial bombings as humanitarian interventions bringing peace freedom and democracy Radu Toma When referring to the world hegemony of the US the author points out that in fact the first victim of such a policy is the American people itself who became captive of more or less hidden centers of power called in various ways global oligarchy the military industrial complex the financial banking elite etc centers that usurped the real power in the state and transformed the democratic political system into a simulacrum for the use of masses subject to sophisticated social engineering Calistrat M Atudorei shows that the US as an empire with pretention of absolute global

supremacy tends to impose its dominance both through non military wars cultural ideological media economic as well as through direct military invasions aiming to punish regimes and nations that do not want to be subjected to them Working with consistent arguments the author emphasizes that the plans of subjugation of the whole world are neither recent nor do they relate to the preferences of people who become US presidents On closer examination the so called hosts of the White House appear to us like ordinary puppets in the hands of forces behind the curtain See in this regard for example the current US President Donald Trump case who abandoned his electoral rhetoric being shaped by the Deep State on the line of serving the interests of this all powerful nebula to the detriment of the American people and peace in the world Iurie Ro ca

Storytelling Philip Seargeant, 2020-05-14 In our post truth world tapping into people s emotions has proved far more effective than rational argument and as Philip Seargeant argues in this illuminating and entertaining book the most powerful tool for manipulating emotions is a gripping narrative From Trump s America to Brexit Britain weaving a good story featuring fearless protagonists challenging quests against seemingly insurmountable odds and soundbite after soundbite of memorable dialogue has been at the heart of political success So does an understanding of the art of storytelling help explain today s successful political movements Can it translate into a blueprint for victory at the ballot box The Art of Political Storytelling looks at how stories are created shared and contested illuminating the pivotal role that persuasive storytelling plays in

shaping our understanding of the political world we live in By mastering the tools and tricks of narrative and evaluating the language and rhetorical strategies used to craft and enact them Seargeant explains how and why today s combination of new media populism and partisanship makes storytelling an ever more important part of the persuasive and political process In doing so the book offers an original and compelling way of understanding the chaotic world of today s politics

The American Marshall Plan Film Campaign and the Europeans Maria Fritsche, 2018-02-08 The US government launched the European Recovery Programme otherwise known as the Marshall Plan in order to save war torn Europe from collapse in 1948 Yet while much is known about the economic side of the Marshall Plan the extensive film campaign that accompanied it has been largely overlooked until now The American Marshall Plan Film Campaign and the Europeans is the first book to explore the use of the Marshall Plan films and importantly their distribution and reception across Europe The study examines every available film the 170 that remain from the 200 estimated to have been made and looks at how they were designed to instil hope argue the case for economic restructuring and persuade the Europeans of the superiority of the liberal capitalist system The book goes on to reason that the films served as a powerful weapon in the cultural Cold War but that the European audiences were by no means passive victims of the US propaganda effort Maria Fritsche discusses the Marshall Plan films in the context of countries across Western Northern and Southern Europe covering the majority of the 17 European countries that participated in the Plan in the process The book incorporates 70 images and utilises a vast number of archival sources to explore the strategies the US adopted to sway the minds of the Europeans the problems they encountered in the process and not least the varied responses of the European audiences It is a vital study for any scholar or student keen to know more about postwar recovery in Europe the legacy of the Second World War or America s relationship with Europe in the 20th century
