Oude Autos En Hun Makers:

The Global Automotive Industry Paul Nieuwenhuis, Peter Wells, 2015-08-06 The automotive industry is still one of the world's largest manufacturing sectors but it suffers from being very technology focused as well as being relatively short term focused. There is little emphasis within the industry and its consultancy and analyst supply network on the broader social and economic impacts of automobility and of the sector that provides it. The Global Automotive Industry addresses this need and is a first port of call for any academic official or consultant wanting an overview of the state of the industry. An international team of specialist researchers both from academia and business review and analyse the key issues that make vehicle manufacturing still the world's premier manufacturing sector closely tied in with the fortunes of both established and newly emerging economies. In doing so it covers issues related to manufacturing both established practices as well as new developments issues relating to distribution marketing and retail vehicle technologies and regulatory trends and crucially labour practices and the people who build cars. In all this it explains both how the current situation arose and also likely future trajectories both in terms of social and regulatory trends as the technological marketing and labour practice responses to those leading in many cases to the development of new business models. Key features: Provides a global overview of the automotive industry covering its current state and considering future challenges. Contains contributions from international specialists in the automotive sector. Presents current research and sets this in an historical and broader industry context. Covers threats to the industry including globalization economic and environmental sustainability. The Global Automotive Industry is a must have reference for researchers and practitioners in the automotive industry and is an excellent source of information for business schools governments and graduate and undergraduate students in automotive engineering.

The Automotive Industry and the Environment Paul Nieuwenhuis, Peter Wells, 2003-08-15 Building on a wealth of research The Automotive Industry and the Environment addresses current challenges in the automotive industry and how they can be met. The authors discuss the development of the automotive industry and the problems it currently faces and consider possible solutions. The book reviews trends in more environmental friendly technologies such as the use of more sustainable fuel sources and new types of modular designs with built in recyclability. The book also describes new models of decentralized production particularly the micro factory retailing MFR model that provide an alternative to volume production and promise to be both more sustainable and more profitable.

Sustainable Automobility Paul Nieuwenhuis, 2014-03-28 We have been trying to make cars cleaner and more efficient but has this really made them more sustainable? This book argues within the context of sustainable consumption and production that we should see the car as a natural system subject to nature.

februari 2022 vielen Russische troepen op bevel van president Poetin buurland Oekraïne binnen. Beelden van vernietiging en van bloedig geweld tegen de Oekraïense burgerbevolking gaan sindsdien de wereld over. Terwijl de wereld in afschuw toekijkt hoe Oekraïne met bommen wordt bestookt, krijgen burgers in Rusland een heel ander beeld van de oorlog: voorgeschoteld eentje waarin het Russische volk de strijd aanbindt met een naziregime in Kyïv en een vuist maakt tegen het imperiale Westen. Om critici en journalisten de mond te snoeren, voeren de autoriteiten een keiharde militaire censuur in en wordt iedere vorm van verzet hard gestraft. Als een van de weinige westerse correspondenten bleef Eva Cukier in Rusland om van binnenuit verslag te doen van de effecten van de oorlog, de repressie en de propaganda en de westerse sancties op de Russische samenleving. Zij reisde door het land en sprak met inwoners van de Zwarte Zee tot ver in Siberië over de impact van oorlog en repressie op hun levens. Haar indrukken en ervaringen geven een unieke en waardevolle inkijk in het leven in het Rusland van Poetin, dat steeds verder isoleert en waar onafhankelijke journalistiek zeldzaam is geworden. Eva Cukier, 1981 is slavist, journaliste en schrijfster. Al ruim vijftientig jaar bereist zij Rusland, Oekraïne, Centraal Azië en de Kaukasus. Ze woonde en werkte in Moskou, Kyïv, Tbilisi en Berlijn. Sinds 2016 is ze werkzaam voor NRC, waarvoor zij verslag doet van de politieke en maatschappelijke gebeurtenissen in de regio.
