

The background of the cover is a stylized illustration. At the top, a large, bright yellow sun or moon is partially obscured by dark, swirling clouds. Below this, a dark, silhouetted figure of a person is shown from the side, looking down. The figure is wearing a long, dark, textured robe. In the foreground, there is a field of dark, leafy plants with small, yellow, bell-shaped flowers. The overall color palette is dominated by dark browns, blacks, and yellows, creating a somber and contemplative mood.

Our Self After Death Expressed:

Life After Death William Landon, 2008-10-07 THERE ARE FEW SUBJECTS IN HUMAN THOUGHT THAT RAISE SUCH STRONG EMOTIONS AS THE AFTERLIFE What if anything awaits us after we leave this physical world Are we reincarnated to try to get it right through another life Do we simply vanish Do we enter some state of bliss or torment based on our good deeds or lack of them It seems that there is no end of conjecture offered by human religion and philosophy on this subject Yet most of this seems to be nothing more than baseless speculation As we have no evidence indeed we cannot have any physical evidence of what becomes of us after our physical death it appears that we have no choice but to pick the idea that is most appealing to us and go with it It is true enough that we will ultimately pick the idea of the afterlife that we choose to believe to be correct yet this is a matter of sufficiently great importance to warrant our choosing wisely The source of information we choose to accept as the correct depiction of the afterlife is one of the most critical decisions we will ever make While this will ultimately be a matter of belief we owe it to ourselves to make our choice based on what these sources actually say and not on what we think they say or what others tell us they say This book is presented as a look at the Bible's teaching on the subject of the afterlife and the choices available to us for an existence after this present life is over The findings presented in this book are at considerable variance with the teachings of traditional institutional Christian church doctrine and dogma It is the author's hope that the points presented here will give the reader a different perspective of the biblical view of life death and afterlife

The Routledge Handbook of Idealism and Immaterialism Joshua Farris, Benedikt Paul

Göcke, 2021-09-12 The influence of materialist ontology largely dominates philosophical and scientific discussions However there is a resurgent interest in alternative ontologies from panpsychism the view that at the base of reality exists potential minds minds or mind lets to idealism and dualism the view that all of reality is material and mental The Routledge Handbook of Idealism and Immaterialism is an outstanding reference source and the first major collection of its kind Historically grounded and constructively motivated it covers the key topics in philosophy science and theology providing students and scholars with a comprehensive introduction to idealism and immaterialism Also addressed are post materialism developments with explicit attention to variations of idealism and immaterialism the view that reality depends on a mind or a set of minds Comprising 44 chapters written by an international and interdisciplinary team of contributors the Handbook is organised into five clear parts Idealism and the history of philosophy Important figures in idealism Systematic assessment of idealism Idealism and science Idealism physicalism panpsychism and substance dualism Essential reading for students and researchers in metaphysics philosophy of science philosophy of religion and philosophy of mind The Routledge Handbook of Idealism and Immaterialism will also be of interest to those in related disciplines where idealist and immaterialist ontology impinge on history science and theology

Godfather of Time Donald Wilmoth, 2014-05 This book is the result of communications between the world of spirit and the world of matter These communications reveal that the cellular metamorphosis of Adam meaning all mankind is the effect of the transgression of divine law in the Garden of Eden a garden of spiritual growth It encompasses all human forms as original sin and causes man to exist within a dual consciousness This does indeed explain the deviation from harmony a broken pattern of the monotype energy force which reversed the thinking process of our consciousness pertaining to the right and left side of the physical brain It is identified as the primary impulse that set in motion an endless chain reaction Our supreme consciousness became partly expressed or let us say veiled in the manifestation which acknowledged thought only pertaining to personal embodiment the five physical senses Medical science does acknowledge the fact that man uses only a portion of the physical brain the unused portion of the brain deals with the portion of our consciousness that is controlled by spiritual energy and left dormant the uncontrolled vagaries of energy which were the five physical senses divided and separated the consciousness
