The Deviant Mystique Scott Grills, Robert Prus, 2003-02-28 Adopting a symbolic interactionist perspective and building extensively on the ethnographic research tradition this book analyzes the mystique that often accompanies deviance by examining deviance as an ongoing feature of community life Because deviance is approached in nonprescriptive ways as a product of community interchange the emphasis here is on the ways in which deviance is defined engaged and regulated It is examined as the product of human association as something that is generated by people as they interact with one another assume viewpoints and initiatives and try to influence and resist one another within the context of community life Prus and Grills do not attempt to address various deviant behaviors instead they provide readers with a glimpse into how deviance is formulated practiced viewed and treated Who defines deviance Why What are the effects of deviance on others How do subcultures form These and other questions are answered in this unique approach to the study of deviance Providing a conceptually coherent framework for approaching the study of deviance as an ongoing feature of the human community the authors pay special attention to the many theaters of operation in which people come together and engage one another with respect to morality and deviance Recognizing that audience definitions of deviance are pivotal to community notions of reality and actual interaction consideration is given to the interrelated processes of defining deviance identifying deviants regulating deviance informally and formally and experiencing treatment and disinvolvement This thoughtful consideration serves to shed new light on the mystique that has been created around ideas about deviance

Monitoring And Evaluation (essays In Honour Of Robert Chambers) Amitava Mukherjee, 2004 Robert Chambers 1802 1871 Scottish publisher and popular writer *Money Pits: British Mining Companies in the Californian and Australian Gold Rushes of the 1850s* John Woodland, 2016-04-15 Between 1849 and 1853 shares in nearly 120 public companies to exploit the booming goldfields of California and Australia were offered to the British public The companies were collectively capitalised at over 15 million but in the end only some 1 75 million was actually raised between 42 of them with only one company surviving what the newspapers of the day described as a gold bubble This book provides an overview of the entire bubble event its antecedents and its outcomes A number of researchers have investigated an earlier boom in the mid 1820s to reopen gold and silver mines in Latin America and several have studied individual company operations of that period This is the first detailed investigation of the British gold bubble companies of the 1850s and their involvement in the almost simultaneous gold rushes on both sides of the Pacific Ocean **Engineering Management** A K Gupta, 2014-10 Suitable for

engineering and management courses this book intends to develop an understanding of the basic management concepts required in different engineering disciplines and meets the specific requirements of students pursuing B Tech M Tech courses and MBA Post graduate Diploma in Management Engineering Management *Utopia in Zion* Raymond Russell, 2012-02-01 Although less famous than Israel s cooperative agricultural settlements the kibbutzim and moshavim Israeli urban worker cooperatives have an equally long and rich history Well over a thousand such organizations have been established in what is now Israel since early in this century This book provides a historical social and economic analysis of contemporary urban worker cooperatives focusing on processes affecting their formation and dissolution their use of nonmember labor and the evolution of their democratic decision making practices over time Raymond Russell examines these cooperatives for the light they can shed on worker ownerships and worker cooperatives in general and on Israeli society in particular Applying a range of sociological and economic theories to examine the dynamics of these organizations over time he finds that both their formation and their later development have been strongly influenced by the uniquely utopian social and economic conditions that prevailed in Jewish Palestine in the first half of the twentieth century **Hearings Regarding**

Communist Activities in the Territory of Hawaii United States. Congress. House. Committee on Un-American Activities,1950 **Resilience and Autonomy in Prewar and Wartime Japan** Hiromi Murakami,2023-12-15 Resilience and Autonomy in Prewar and Wartime Japan The Internal Governance of Industries 1925 1945 illuminates the processes by which industrial manufacturing organizations in Japan conducted collective actions and how and under what conditions industries interacted with each other and responded to government interference Surprisingly the nature of the struggle between the authorities and the private sector in Japan remains the same today as it did during the prewar period The private sector had been frustrated with impractical state policies and responded vigorously because its survival was at stake This book specifically delves into the manufacturing industries and explores the extent to which industry groups collectively responded to crisis situations and interacted with the authorities It highlights the remarkable resilience leadership and initiative displayed by the industry sector in self governance and assertion of power over authorities even when government controls were nominally in effect Hearings Regarding Communist Activities in the Territory of Hawaii: July 6, 1951 United States. Congress. House. Committee on Un-American Activities,1950 Hearings [and Reports] 82d Congress, 1st Session: Hearings regarding communist activities in the territory of Hawaii United States. Congress. House. Committee on Un-American Activities,1951 **Integrating Safety-II into Safety Management** Toni Wäfler,Rahel Gugerli,Giulio Nisoli,2020-12-22 We all aim for safe processes However providing safety is a complex endeavour What is it that makes a process safe And what is the contribution of humans It is very common to consider humans a risk factor prone to errors Therefore we implement sophisticated safety management systems SMS in order to prevent potential human failure These SMS provide an impressive increase of safety In safety science this approach is labelled Safety I and it starts to be questioned because humans do not show failures only On the contrary they often actively contribute to safety sometimes even by deviating from a procedure This Safety II perspective considers humans to be a safety factor as well because of their ability to adjust behaviour to the given situation However adaptability requires scope of action and this is where Safety I and Safety II contradict each other While the former restricts freedom of action the latter requires room for manoeuvring Thus the task of integrating the Safety II perspective into SMS which are traditionally Safety I based is difficult This challenge was the main objective of our project We discovered two methods that contribute to the quality of SMS by integrating Safety II into SMS without jeopardizing the Safety I approach *Participatory Evaluation of Development Initiatives In Conflict Situations* Amitava Mukherjee,2021-01-01 The book is an exercise in real life evaluations in conflict situations in Afghanistan It covers a wide range of situations and development interventions where participatory monitoring and evaluation PM E could be very effective The book discusses the principles of community based monitoring and evaluation to set the context in which participatory monitoring and evaluation can be carried out and draws our attention to the quality of participatory monitoring and evaluation The framework under which participatory monitoring and evaluation can be carried out has been

discussed in detail Application of participatory monitoring and evaluation is demonstrated in a national level development intervention funded by the World Bank and in the evaluation of the Country Strategy of a major Donor that operates internationally both in conflict situations Then as a control group participatory monitoring and evaluation as a real life process in non conflict situation namely programmes under MNREGA is demonstrated in villages in Mirzapur Finally details of the participatory methods that could be applied in community based monitoring and evaluations have been provided for future use and to facilitate future learnings The book will be invaluable for students teachers and trainers of development economics Government functionaries functionaries in the development sector front line development workers and practitioners *Making the Case* Donn Short,Bruce MacDougall,Paul T. Clarke,2021-11-15 A principal forbids same sex prom dates A community group tries to prohibit gender neutral bathrooms Despite growing acceptance of 2SLGBTQ rights Canadian schools regularly become battlegrounds in clashes between students wishing to express their sexuality or gender identity and those who perceive this as a threat to their values Making the Case clearly shows how Canadian law responds to competing human rights claims when there is a clash between people asserting sexual minority rights and those asserting religious rights The authors call on related court cases to explain the position of Canadian law They demonstrate that Canadians have rights to religion and rights to gender expression or sexual orientation and that supporting sexual minority rights does not undermine other people s rights to religious freedom This accessible book is an important tool for anyone working to create an inclusive school environment or needing to respond to a rights based conflict within their school

culturally diverse and economically fragmented Responses to insecurity now increasingly inform decisions made by governments organisations and ordinary people in their social interactions This book makes a key contribution to an understanding of these developments approaching the subject from a range of perspectives across several different disciplines The three parts of the book look at broader theoretical and thematic issues then at cross national and pan European developments and debates in European governance and finally explore specific examples of local issues of community safety and the broader implications these have Leading figures in the field draw upon criminological legal social and political theory to shed new light on what has become one of the most intractable problems facing western societies

Economic Aspects of Community Involvement in Sustainable Forest Management in Eastern and Southern Africa ,2001 Examines whether forest management regimes in the region have actually provided communities with sufficient economic benefits to make them willing and able to conserve and to use sustainable forest resources in the course of their production and consumption activities
