Officer Off Limits Tessa Bailey, 2013-06-10 Story Brooks' fiancé just called off their wedding two weeks before the happy day. As if that isn't bad enough, her semi-estranged father, an infamous NYPD hostage negotiator, just suffered a heart attack. Not wanting to examine her lack of emotion over the broken engagement, she hops on a plane to reconnect with her father before it's too late. Playboy hostage negotiator Daniel Chase has never not once been refused by a woman. So when a debate over hospital snack foods with a delectable kindergarten teacher ends in flat-out rejection, he makes it his mission to seduce her. His only obstacle: She's the daughter of his mentor who implicitly forbade Daniel from pursuing her. Despite her father's warnings and Daniel's troubled past, Daniel and Story can't resist their intense attraction to one another. But when the reason for her fiancé's abrupt wedding cancellation comes to light, can Story and Daniel's already forbidden relationship survive? Each book in the Line of Duty series is STANDALONE. Protecting What's His, Officer Off Limits, Asking for Trouble, Staking His Claim, Protecting What's Theirs.

When People Come First João Biehl, Adriana Petryna, 2013-07-07 A people-centered approach to global health. *When People Come First* critically assesses the expanding field of global health. It brings together an international and interdisciplinary group of scholars to address the medical, social, political and economic dimensions of the global health enterprise through vivid case studies and bold conceptual work. The book demonstrates the crucial role of ethnography as an empirical lantern in global health, arguing for a more comprehensive people-centered approach. Topics include the limits of technological quick fixes in disease control, the moral economy of global health science, the unexpected effects of massive treatment rollouts in resource-poor contexts, and how right to health activism coalesces with the increased influence of the pharmaceutical industry on health care. The contributors explore the altered landscapes left behind after programs scale up, break down or move on. We learn that disease is really never just one thing; technology, delivery, does not equate with care, and biology and technology interact in ways we cannot always predict. The most effective solutions may well be found in people themselves who consistently exceed the projections of experts and the medical, scientific, political and humanitarian frameworks in which they are cast. *When People Come First* sets a new research agenda in global health and social theory and challenges us to rethink the relationships between care, rights, health and economic futures.
