Our Extraterrestrial Past Present And Future Interpretations Evidence And Relevancy:

Our Extraterrestrial Past, Present and Future Rufus O Jimerson, Dr,Rufus Jimerson,2013-11 The purpose of this book is to provide vivid interpretations and evidence that the less than 5 percent of our DNA is extraterrestrial in origin and serves as the means of our intellectual design continuous evolution and advances in civilization The extraterrestrial gene connects us with our off world origins in these endeavors through altered states of consciousness such as dreams prayer meditation etc Out of this context religion originating from commandments from star beings commands us to follow our extraterrestrial imperatives without destroying one another and advances achieved There are gravitational and electro magnetic forces emanating from the planet along with avarice of material consumption that contradict our extraterrestrial or spiritual imperatives The book argues that we are star beings in the living organisms of the Earth so we can carry out our mission on this planet In effect our essence is encased in the mud of the Earth to achieve a higher state of consciousness in fulfillment of our cosmic purpose To make this case the book provides vivid interpretations regarding our off world roots and how it helps us advance spiritually and technologically Divine commandments are given to help us preserve humanity all creatures big and small and the environment that are intrinsically linked To make this case the book interprets the creation myths of early civilizations mostly in Africa its North African subcontinent today s Middle East as well as the first of these in Lemuria and Hama Zecharia Sitchin s theory of creation is examined including the link between his alien Anunnaki and Dogons Nommos The work of Erick Van Daniken is presented throughout the book threaded with Sitchin and Reverend Carter s theories Wayne Herchel s theory regarding the purpose of the megalithic pyramids and other Wonders of the World that are still standing more than 3 000 years since their construction is presented The theory that post primitive man could not construct such marvels without the help of technology more advanced than what known today is a given The Taurus Orion source of this help is identified The Exo science theory of Michael Salla is presented and its connection to the extraterrestrial DNA imperative Interpretations and depictions of encounters psychic and visible with extraterrestrials through the ages are presented to support Exo science and other Exo theories Respectively the work of Richard C Hoagland is acknowledged A Daniken Hoagland postulation is described Their findings are supported by research resulting from the Human Genome Project identified Questions are raised respecting whether the human race is merely avatars of off world beings A plausible argument supporting this notion is given An implication is also given that this knowledge is buried in our DNA memory and surfaced in the theme of the 2009 movie Avatar The human seeking to exploit the planet for its resources were actually aliens The natives of the planet represented hominids before being seeded and biogenetically manipulated by off world beings humans The hybridized avatars in the movie who fell in love with native women would seed the natives and produce exceptional beings connected to their off world makers The DNA memory that recalls this phenomenon also surfaces in the worship of Vishnu **A Companion to Donald Davidson** Ernest Lepore,Kirk Ludwig,2013-06-17 A Companion to Donald
