Out Of Bounds Academic Freedom And The Question Of Palestine:

Out of Bounds Matthew Abraham, 2014-01-02 Academic freedom is a key element of the academic enterprise in the U S However it does not seem to exist when scholars seek to advocate on behalf of Palestinian self determination This unique work examines how the knowledge power nexus is shaping the discourse around the Israel Palestine conflict and restricting academic freedom Beginning with a discussion of American Zionism the work proceeds to explain why scholars working on the question of Palestine are often denied standard academic freedom This is supported by prominent cases such as Norman G Finkelstein s denial of tenure the Middle East Studies Department at Columbia University and Mearsheimer and Walt s book The Israel Lobby The work of Edward Said and Noam Chomsky are also discussed and the book concludes with recommendations for protecting intellectual freedom to those seeking to critically pursue the question of Palestine This scholarly study will appeal to a broad audience of faculty students and readers who seek to understand the importance of academic freedom and the thorny debates surrounding the Israel Palestine conflict

Civility, Free Speech, and Academic Freedom in Higher Education Reshmi Dutt-Ballerstadt, Kakali Bhattacharya, 2021-05-16 Civility Free Speech and Academic Freedom in Higher Education Faculty on the Margins represents a multidisciplinary approach deploying different theoretical methodological sociological political and creative perspectives to articulate the stakes of civility for marginalized faculty within the landscape of higher education How has the discourse on civility and free speech within academia become a systemic and oppressive form of silencing suppressing or eradicating marginal voices What are some overt and covert ways in which institutions are using the logic of civility to control faculty uprising against the increasingly corporate controlled landscape of higher education This collection of essays examines the continuum between the post 9 11 and the post Trump era backlashes It details the organized retaliations against those in academia whose views and scholarships articulate their discontents against the U S led War on Terror It contests the rise of White supremacy Trump s Muslim ban anti immigrant and racist government

policies and rhetoric and those who support the Boycott and Divestment Sanctions movements within the corporatized universities All of these new and original essays shed light and further the debate on the various modes of civility that have become politicized within the U S academy It will have a broad appeal to a cross section of national and international academics activist scholars social justice educators and researchers in the field of higher education

Enforcing Silence David Landy, Ronit Lentin, Conor McCarthy, 2020-05-15 Academic freedom is under siege as our universities become the sites of increasingly fraught battles over freedom of speech While much of the public debate has focussed on no platforming by students this overlooks the far graver threat posed by concerted efforts to silence the critical voices of both academics and students through the use of bureaucracy legal threats and online harassment Such tactics have conspicuously been used with particularly virulent effect in an attempt to silence academic criticism of Israel This collection uses the controversies surrounding the Israeli Palestinian conflict as a means of exploring the limits placed on academic freedom in a variety of different national contexts It looks at how the increased neoliberalisation of higher education has shaped the current climate and considers how academics and their universities should respond to these new threats Bringing together new and established scholars from Palestine and the wider Middle East as well as the US and Europe *Enforcing Silence* shows us how we can and must defend our universities as places for critical thinking and free expression

Boycott Theory and the Struggle for Palestine Nick Riemer, 2022-12-13 The academic boycott of Israel a branch of the pro Palestinian Boycott Divestment and Sanctions BDS campaign is one of the richest and most divisive topics in the politics of knowledge today In *Boycott Theory and the Struggle for Palestine* Nick Riemer addresses the most fundamental questions raised by the call to sever ties with Israeli universities and offers fresh arguments for doing so More than a narrow study of the boycott campaign the book details how academic BDS relates to a range of live controversies in progressive politics on questions such as disruptive protest silencing and free speech the real world consequences of intellectual work the rise of the far right and the nature of grassroots campaigning Written for open minded readers the book presents the fullest justification for the academic boycott yet given considering BDS efforts on campuses around the world The opening chapters explore the fundamentals of the academic boycott campaign detailing the conditions on the ground in Palestinian and Israeli higher education and analyzing debates over the boycott and its adoption or resistance in the west The later chapters contextualize the boycott with respect to broader questions about the links between theory and practice in political change Directly rebutting the arguments of BDS s opponents *Boycott Theory and the Struggle for Palestine* demonstrates the political and intellectual soundness of a controversial and often misrepresented campaign In defending an original view of the differences between reflecting on politics and doing it in the specific context of the liberation of Palestine the book s arguments will have a resonance for many wider debates beyond the context of either universities or the Middle East

Academic Freedom and the Transnational Production of Knowledge Dina Kiwan, 2024-01-25 Drawing on rich interviews with academics in

four different countries this book develops a transnational theory of academic freedom *Textbooks on Israel-Palestine* Seyed Hadi Borhani,2022-01-27 How is the Israel Palestine question narrated in Western academia What ideas dominate the key textbooks on the subject and what is presented as truth This book answers these critical questions It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine But academic support of Israel in the West has been a neglected issue with Western academic knowledge being regarded as impartial and objective This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel Palestine question Rather knowledge has been biased misleading and dogmatic and Western college students are subscribing to factual histories based on theories at best if not fiction The book is the first empirical investigation able to document this partial reporting of history Seyed Hadi Borhani examines the most popular college level textbooks used to teach the history of the Israel Palestine in Western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge The book provides a historical map of how the Israel Palestine conflict is understood in the West The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in Western academia

From Coexistence to Conquest Victor Kattan,2009-06-20 This book shows how the Arab Israeli conflict developed by looking beyond the legality argument to the men behind the policies It argues that Zionism was adopted by the British Government in its 1917 Balfour Declaration primarily as a way to control immigration The book places the violent reaction of the Palestinians to mass Jewish immigration in the context of Zionism and revisits the controversies over the question of self determination and the partition of Palestine Arguing that Israel was created through an act of conquest and subjugation the book concludes with a sobering analysis of the conflict arguing that neither Jews nor Arabs were to blame for starting it

Intellectual Resistance and the Struggle for Palestine M. Abraham,2014-08-07 By positioning the late Edward Said as political interventions as a public intellectual on behalf of Palestinian populations living under Israeli occupation as a form of intellectual resistance Abraham moves to consider forms of physical resistance seeking to better understand the motivations of those who choose to turn their bodies into weapons *Unthinkable Thoughts* Susan G.

Drummond,2013-05-01 In 2009 an international conference exploring models of statehood for Israel and Palestine was held at York University The conference became a cause c l bre when extraordinary pressures were exerted on organizers and university administrators by academics private donors pro Israel lobbies and other groups concerned with this issue This book covers the events from the perspective of one of the conference organizers Based on her own experiences and communications as well as drawing from confidential e mails released under Freedom of Information legislation Susan Drummond offers a behind the scenes insider s look at these extraordinary events and their implications for academic freedom *Weathering the Storm* Richard N. Matzen Jr.,Matthew Abraham,2019-08-15 Weathering the Storm assesses the

socioeconomic and political conditions that have surrounded the rise of independent writing programs IWP and departments Chapter contributors look at the institutional conditions and challenges that IWP have faced since the 1980s with a focus on enduring the financial collapse of 2008 Leading writing specialists at the University of Texas at Austin Syracuse University the University of Minnesota and many other institutions document and think carefully about the on the ground obstacles that have made the creation of IWP unique From institutional naysayers in English departments to skeptical administrators IWP and the faculty within them have surmounted not only negative economics but also negative rhetorics This collection charts the story of this journey as writing faculty continually make the case for the importance of writing in the university curriculum Independence has for the most part allowed IWP to better respond to the Great Recession but to do so they have had to define writing studies in relation to other disciplines and departments Weathering the Storm will be of great interest to faculty and graduate students in rhetoric and composition writing program administrators and writing studies and English department faculty Contributors Linda Adler Kassner Lois Agnew Alice Batt David Beard Davida Charney Amy Clements Diane Davis Frank Gaughan Heidi Skurat Harris George H Jensen Rodger LeGrand Drew M Loewe Mark Garrett Longaker Cindy Moore Peggy O Neill Chongwon Park Louise Wetherbee Phelps Mary Rist Valerie Ross John J Ruszkiewicz Eileen E Schell Madeleine Sorapure Chris Thaiss Patrick Wehner Jamie White Farnham Carl Whithaus Traci A Zimmerman

Paradigm Lost Ian S. Lustick, 2019-11-15 The two state solution is doomed the one state reality is here to stay Why have Israelis and Palestinians failed to achieve a two state solution to the conflict that has cost so much and lasted so long In Paradigm Lost Ian S Lustick brings fifty years as an analyst of the Arab Israeli dispute to bear on this question and offers a provocative explanation of why continued attempts to divide the land will have no more success than would negotiations to establish a one state solution Basing his argument on the decisiveness of unanticipated consequences Lustick shows how the combination of Zionism s partially successful Iron Wall strategy for dealing with Arabs an Israeli political culture saturated with what the author calls Holocaustia and the Israel lobby s dominant influence on American policy toward the Arab Israeli conflict scuttled efforts to establish a Palestinian state alongside Israel Yet he demonstrates it has also unintentionally set the stage for new struggles and better problems for both Israel and the Palestinians Drawing on the history of scientific ideas that once seemed certain but were ultimately discarded Lustick encourages shifting attention from two state blueprints that provide no map for realistic action to the democratizing competition that arises when different subgroups forced to be part of the same polity redefine their interests and form new alliances to pursue them Paradigm Lost argues that negotiations for a two state solution between the Mediterranean Sea and the Jordan River are doomed and counterproductive Israeli Jews and Palestinian Arabs can enjoy the democracy they deserve but only after decades of struggle amid the unintended but powerful consequences of today s one state reality To Stand with Palestine Karam Dana, 2025-02-04 In recent years attitudes in the United States toward the Palestinian cause have shifted dramatically Although Palestinians have long been demonized in U S

media and politics their struggle portrayed as illegitimate emergent progressive voices increasingly challenge the status quo on Israel and Palestine and express solidarity with Palestinian resistance What accounts for this change and its evolution This book provides a new lens on activism around Palestinian issues demonstrating how the global Palestinian diaspora has driven transnational political movements Karam Dana explores the ways that exile has shaped Palestinian identity and allowed for new forms of global activism He examines the social political economic and technological forces that have created space for Palestinian voices to be heard by wider audiences worldwide Drawing on interviews with scholars and advocates including members of the Palestinian diaspora and Jewish American activists as well as public opinion data and media analysis Dana traces how global Palestinian communities have influenced American views He addresses the backlash against pro Palestinian advocacy but argues that solidarity with Palestinians both in the United States and globally will continue to strengthen Timely and insightful To Stand with Palestine offers an inside look at how Palestinians have shared their story with the world and why sympathy for their plight is growing with significant implications for the global political landscape

Toward a Critical Rhetoric on the Israel-Palestine Conflict Matthew Abraham, 2015-07-01 This edited collection brings together a group of rhetoricians seeking to develop productive ways to discuss the Israel Palestine conflict while avoiding the discursive impasses that so often derail attempts to exchange points of view *Edinburgh Companion to the Postcolonial Middle East* Ball Anna Ball, 2018-11-14 This Edinburgh Companion seeks to develop a postcolonial framework for addressing the Middle East The first collection of essays on this subject it assembles some of the world's foremost postcolonialists to explore the critical theoretical and disciplinary possibilities that inquiry into this region opens for postcolonial studies Throughout its twenty-four chapters its focus is on literary and cultural critique It draws on texts and contexts from the late nineteenth to the early twenty-first centuries as case studies and deploys the concept of postcolonial modernity to reveal the enduring impact of colonial and imperial power on the shaping of the region And it covers a wide and significant range of political social and cultural issues in the Middle East during that period including the heritage of Orientalism in the region the roots and contemporary branches of the Israel Palestine conflict colonial history state formation and cultures of resistance in Egypt Turkey the Maghreb and the wider Arab world the clash of tradition and modernity in regional and transnational expressions of Islam the politics of gender and sexuality in the Arab world the ongoing crises in Libya Iraq Iran and Syria the Arab Spring and the Middle Eastern refugee crisis in Europe *The films of Costa-Gavras* Homer B. Pettey, 2020-06-11 Costa Gavras is a seminal figure in French and international cinema A master of the political thriller he explores historical events through individual human stories thereby involving his audience in past and contemporary traumas from the horrors of the Holocaust through mid-century international state terrorism and totalitarianism to the current global financial crisis With a career spanning half a century he remains one of cinema's most intriguing and enduring storytellers theorists and political commentators This collection of original essays charts and re

examines Costa Gavras's career from *Un homme de trop* 1967 to *Le capital* 2012. Readable and carefully researched, it will appeal to students and scholars of film as well as fans of the director's work.

Transforming English Studies Lori Ostergaard, Jeff Ludwig, 2009-02-23 *Transforming English Studies* provides a uniquely interdisciplinary view of English studies crises both real and imagined and works toward resolving the legitimate pathologies that threaten the sustainability of the discipline.

Paradoxical Citizenship Silvia Nagy-Zekmi, 2008-01-01 In a collection of intriguing essays on the work of Edward Said, internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough *Orientalism*, the role of the intellectual, the Question of Palestine, and finally his dramatic memoir *Out of Place*. This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker.

Education at War Arshad Imtiaz Ali, 2018-04-10 *Education at War: The Fight for Students of Color in America's Public Schools* attempts to shape educational research and practice to more explicitly consider the relationship between education, capitalism, and war, and more specifically its impact on students of color. The authors as a whole contend that the contemporary specter of war has become a central way that racism and materialism become manifested and practiced within education. In particular, this collection asserts that the contemporary neoliberal characterization of education and school-based reform is situated within the global political economy that has facilitated a growth in the prison and military industrial complex and simultaneous divestment in education domestically within the U.S. *Education at War* attempts to make research relevant by bringing the tensions within young people's lives to the fore. The heavy shadow cast by recent U.S.-led wars reorganizes the sites of learning and teaching nationally as well as differentially within specific sites and upon particular communities. Nonetheless, the examination of this context is not enough. Rather, we consider how such a contemporary context can facilitate educational spaces for communities and youth to grow their vision for a different and hopefully a more humanizing future. Thus, the book contributors will collectively explore how resistance can produce the opportunity for rich, diverse, and transformative learning for marginalized students and communities. The lives of People of Color are the forefront of *Education at War: The Fight for Students of Color in America's Public Schools*. Whereas there are many attempts to theorize about the global implications of war, less attention is paid to the ways that war shapes young lives in the U.S., particularly in an educational context. The book addresses the absence of youth-centered discussions regarding education during a political context of neoliberalism and war and provides important perspectives on which to ground critical discussions among students and families, education scholars and practitioners, and policymakers.

The Bigot Stephen Eric Bronner, 2014-07-01 Stephen Eric Bronner is a prolific author, activist, and one of America's leading political thinkers. His new book presents bigotry as a systematic, all-encompassing mindset that has a special affinity for right-wing movements. In what will surely prove a seminal study, Bronner explores its appeal, the self-image it justifies, the interests it serves, and its complex connection with modernity. He reveals how prejudice shapes the conspiratorial and

paranoid worldview of the true believer the elitist and the chauvinist In the process it becomes apparent how the bigot hides behind mainstream conservative labels in order to support policies designed to disadvantage the targets of his contempt Examining bigotry in its various dimensions anthropological historical psychological sociological and political Professor Bronner illustrates how the bigot s intense hatred of the other is a direct reaction to social progress liberal values secularism and an increasingly complex and diverse world A sobering look at the bigot in the twenty first century this volume is essential for making sense of the dangers facing democracy now and in the future
