Outline Operations British Troops Affghanistan:

Outline of the Operations of the British Troops in Scinde and Affghanistan George Buist, 1843

Outline of the Operations of the British Troops in Scinde and Affghanistan is a detailed account of British military operations in the First Anglo Afghan War 1839-42 and of the invasion in 1839 by the British East India Company of the province of Sind in present day Pakistan. The author George Buist 1804-60 was editor of the Bombay Times and the book is heavily drawn from dispatches that appeared in that newspaper and in another Indian publication the Monthly Times. Buist was born in Scotland and educated at Saint Andrews University and the University of Edinburgh. In addition to his newspaper work he was an accomplished amateur scientist who collected scientific data in various fields and served as secretary to the Geographical Society of Bombay and the Agri Horticultural Society of Western India. Buist was highly critical of British policy both in this book and in the editorial line taken by the Bombay Times. He writes that the Anglo Afghan War began as a war of aggression turned into struggle for our own defence and was transformed finally into a war of vengeance. He opposed the policy of retaliation against the Afghans after the Kabul massacres of 1842 and argued that the war was both ruinously expensive and inimical to British interests. The British objective in starting the war was to drive the ruler of Afghanistan Dost Mohammad Khan from power and to replace him with Shah Shuja who was thought to be more favorable to British interests and less susceptible to Russian pressure or blandishment. About this view Buist writes: 'The more the matter is examined the more difficult it is to discover by what process of self delusion it was that the projectors or advocates of the Doorannee Durrani alliance could for a moment persuade themselves that the restoration and maintenance of the Shah Shoojah Shuja on the throne could conduce to any one of the ends we professed ourselves anxious to attain.'

International Peacekeeping: The Yearbook of International Peace Operations Harvey Langholtz, Boris Kondoch, Alan Wells, 2021-10-01

International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues. It is recognized that in today's world there is a wealth of information available from the internet and through other sources. It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles, a chronicle, primary documents and a bibliography. Topics include inter alia peacekeeping, peace war, conflict resolution, diplomacy, international law, international security, humanitarian relief, humanitarian law and terrorism. The Yearbook is of scholarly quality but is not narrowly theoretical. It provides the interested public, diplomats, civil servants, politicians, the military, academics, journalists, NGO employees and serious citizens with a document of record, comment and a starting point for further research on peacekeeping and related topics. This is achieved not only by the provision of basic documents on CD-ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events. Peacekeeping is treated in a pragmatic light, seen as a form of international military cooperation for the preservation or

restoration of international peace and security Attention is focused not only on UN peacekeeping operations but other missions as well This Yearbook is the continuation of the journal *International Peacekeeping* *Brief Histories, Outlines, Etc. of Various Units of the British Army* Great Britain. Army,1929 **The British Army in Afghanistan 2006-14** Leigh Neville,2015-05-20 Fighting an elusive and dangerous enemy far from home the British army in Afghanistan has been involved in asymmetric warfare for the best part of a decade The eight year series of deployments jointly known as Operation Herrick alongside US and other NATO contingents within the International Security Assistance Force ISAF in Afghanistan have been the longest continuous combat commitment of the British Army since World War II Together with Operation Telic in Iraq which immediately preceded and overlapped with it this conflict has shaped the British Army for a generation Enemy threats have diversified and evolved with a consequent evolution of British doctrine tactics and equipment This book provides a detailed analysis of those specifics within a clear connected account of the course of the war in Helmand operation by operation *Edwards's Military Catalogue* Francis Edwards (Firm),1908 **Dictionary of National Biography** Sidney Lee,1895 **Operations in Afghanistan** Great Britain: Parliament: House of Commons: Defence Committee,2011-07-17 This report looks at operations in Afghanistan since 2006 and makes further recommendations for the anticipated draw down of forces UK Forces were deployed in Helmand Province in Afghanistan for three years from 2006 without the necessary personnel equipment or intelligence to succeed in their mission Mistakes were made as a result of a failure in military and political coordination The decision to move UK Armed Forces into the South of Afghanistan in early 2006 was not fully thought through The Committee is concerned that the MoD did not anticipate that the presence of the Armed Forces in Helmand might stir up a hornets nest especially as much of the intelligence was contradictory Senior military advisers should have drawn attention to the need for force levels to be sufficiently robust to cope with an unpredictable conflict The Committee is disturbed that the Secretary of State was told that commanders on the ground were content with the support they were being given in Helmand when clearly they were not After only a matter of months in Helmand the nature of the UK Mission changed with serious strategic implications The MoD did not respond quickly enough to changes in Taliban tactics The MoD should prioritise the protection of personnel The Government s room for manoeuvre regarding the number of troops that could be withdrawn from Afghanistan as part of an immediate transition is necessarily limited More emphasis needs to be placed on capacity building within the political system if long term success is to be achieved **Series C** United States. Dept. of State. Division of Information,1924 **UK Communication Strategies for Afghanistan, 2001-2014** Thomas W. Cawkwell,2016-03-09 The war in Afghanistan came to an end in 2014 after nearly thirteen years of conflict Throughout that period British officials have described UK operations there in various conflicting and often contradictory ways as a counter terrorism mission a stabilisation mission and a counter narcotics mission respectively This book investigates how the war was sold to the British public and how Britain s transnational foreign and defence policy impacted

on the unfolding of UK strategy in Afghanistan and the way it was communicated It argues that because the UK's foreign and defence policy is transnationally oriented meaning that it is foundationally aimed at maintaining alliance with the United States and the institutional coherence of NATO UK strategy is contingent upon collective security and crucially is fundamentally concerned with the means of policy maintaining alliances over the ends using alliances to effect change Explaining the inalienability of collective security systems to national security is no easy task however and when faced with the adversities of Afghanistan the UK state has since 2008 instead opted to describe the significance of Afghanistan in narrow nation centric counter terrorist concerns in order to maintain public support for collective security operations there whilst paradoxically framing the conflict in a manner that avoids talking about the transnational structure and purpose of the mission This kind of strategic communication is increasingly becoming a focus of the UK state as it faces a transnational dilemma of maintaining its collective security bonds whilst facing a public increasingly sceptical of liberal interventionism
