Outlining Goes Electronic Outlining Goes Electronic:

Outlining Goes Electronic Jonathan Price, 1999-05-06 This book examines a writing activity that has recently fallen into disrepute Outlining has a bad reputation among students even though many teachers and textbooks still recommend the process In part the author argues the medium is to blame Paper and ink make the revision difficult But if one uses an electronic outliner the activity can be very helpful in developing a thoughtful and effective document particularly one that spans many pages and deals with a complicated subject Outlining Goes Electronic takes an historical approach examining the way people developed the idea of outlining from the classical period to the present We see that the medium in which people worked strongly shaped their assumptions ideas and use of outlines In developing a theoretical model of outlining as an activity the author argues that a relatively new electronic tool software that accelerates and performs the process of outlining can give us a new perspective from which to engage previous classroom models of writing recent writing theory and current practice in the technical writing field [Virtual Peer Review](#) Lee-Ann Kastman Breuch, 2012-02-01 In a

reassessment of peer review practices Lee Ann Kastman Breuch explores how computer technology changes our understanding of this activity She defines virtual peer review as the use of computer technology to exchange and respond to one another's writing in order to improve it Arguing that peer review goes through a remediation when conducted in virtual environments the author suggests that virtual peer review highlights a unique intersection of social theories of language and technological literacy **Handbook of Management Communication** François Cooren, Peter Stücheli-Herlach, 2021-08-23
