The Capstone of Preparedness considers the new global drivers behind threats and hazards facing all those tasked with protecting the public and private sector. The text delves into the global mindset of public and private sector emergency managers and presents a new risk landscape vastly different from the one existing ten years ago. The book begins by presenting a series of fictitious scenarios each resulting in mass destruction and fatalities. These are each followed by actual news stories that support the scenarios and demonstrate that the proposed events seemingly unthinkable have the potential to occur. Next, the author identifies two drivers in the practice of emergency management and general preparedness today that constitute our view of the future and the new face of risk. The first is the Disaster Halo Effect—the idea that modern threats exhibit more than one event. The second is the worldview of our nation as a Market State focused on the trading of goods, services, and ideas among the nation states. The book also reviews the history of preparedness and discusses its relationship with large scale threats, establishing that hindsight bias has hurt our ability to plan and respond to the unexpected. The chapters that follow explore what is needed to better cultivate, design, develop, and operate emerging management and preparedness thinking in the current environment. Each chapter begins with key terms and objectives and ends with thought-provoking questions. Introducing a new paradigm of thought that takes into account the chief influencers of global threats, the book arms emergency and business operations managers with the ammo needed to successfully confront emerging threats in the 21st century.

Internet Joke Book Keith Evans, 2000-09-21. The Internet Joke Book is filled with short jokes, witty humor, and bizarre stories that were gathered from around the United States and abroad via the Internet and other sources, as well as from friends and family. I should also point out before going any further that much of the credit for this book should go to my daughter. If not for her giving me the idea and placing my other two books on hold, a book of this make-up may have never existed. Beyond the book's jacket, you will run across page after

humorous page of sidesplitting witticisms They are of old and new nevertheless the old still being very hilarious and the new even more uproarious after all we have until now not read them Various contents of the Internet Joke Book may not be suitable for younger readers This book was not tailor made for the juvenile reader however this book as any book of this nature should rest in the judgement of the parent I myself being a single parent would not recommend that the contents of this book be disclosed to any teenager under the age of seventeen or either the adult contents be block out by the parent or guardian Nevertheless there may be parents who chose to allow their children as young as fifteen and sixteen to take in the contents of this book again this is not recommended by the author I can only hope my readers enjoy and have as much fun with this book as we did gathering and putting it together Once my daughter had told our friends neighbors and relatives of what we were doing we had more help than we could handle We are now working on a second book The Internet Joke Book Volume Two which will consist of much more and newer witticisms I hope all will appreciate the first book and be patient enough to wait and read the second
