**A Short History of South Africa** Gail Nattrass, 2017-11-16 South Africa is popularly perceived as the most influential nation in Africa a gateway to an entire continent for finance trade and politics and a crucial mediator in its neighbours affairs. On the other hand post Apartheid dreams of progress and reform have in part collapsed into a morass of corruption unemployment and criminal violence. *A Short History of South Africa* is a brief general account of the history of this most complicated and fascinating country from the first evidence of hominid existence to the wars of the 18th 19th and 20th centuries that led to the establishment of modern South Africa the horrors of Apartheid and the optimism following its collapse as well as the prospects and challenges for the future. This readable and thorough account illustrated with maps and photographs is the culmination of a lifetime of researching and teaching the broad spectrum of South African history. Nattrass's passion for her subject shines through whether she is elucidating the reader on early humans in the cradle of humankind or describing the tumultuous twentieth century processes that shaped the democracy that is South Africa today.

**Different Visions of Love** Brian Griffith, 2008 Griffith's narrative moves like a searchlight over each phase of church history illuminating the visions options and choices behind events. He traces the rise of a dominator version of Christianity in which the primary concern was a chain of command to be followed with rewards or punishments according to the degree of obedience. And beside this he illuminates another face of Christianity concerned with healing all divisions between loved and unloved people. The story Griffith presents is often deeply disturbing as in his unstinting accounts concerning the gospel for women or the age of holy wars and witch hunts. But ultimately his story offers solid grounds for optimism. He shows that all contention between different religious visions can be a process of building partnership. As Griffith points out Jesus himself wished to debate his opponents openly not to silence or eliminate them. He was not afraid of real encounter or the potential of creative conflict. I want to congratulate Brian Griffith on this masterful controversial and highly readable account. His book offers hope in a divided world where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism. I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world. Riane Eisler author of *The Chalice the Blade Sacred Pleasure Tomorrows Children The Power of Partnership The Real Wealth of Nations* I find it gives me an incredibly clarifying perspective on Christianity way beyond my previous understanding. It should be read by everyone with an interest in Western Civilization. It is a marvelous companion to *The Great Turning* David Korten author of *The Great Turning From Empire to Earth Community*.
